Produced by the NC Central Cancer Registry, 12/2020

Numbers are subject to change as files are updated.

\*\* Cancer incidence rates for cell sizes with fewer than 16 cases of cancer are suppressed as they are not stable.

Cases may not sum to totals due to unknown or other values.

Cancers of the urinary bladder and female breast include in situ cases.

Rates are calculated using the bridged-race population estimates obtained from the National Center for Health Statistics available online at [www.cdc.gov/nchs/nvss/bridged\\_race/data\\_documentation.htm#vintage2019](http://www.cdc.gov/nchs/nvss/bridged_race/data_documentation.htm#vintage2019).
