Produced by the NC Central Cancer Registry, 08/2024

Numbers are subject to change as files are updated.

\* Cell sizes with fewer than five cases of cancer incidence are suppressed for confidentiality.

\*\* Cancer incidence rates for cell sizes with fewer than 16 cases of cancer are suppressed as they are not stable.

Cases may not sum to totals due to unknown or other values.

Cancers of the urinary bladder and female breast include in situ cases.

Rates are calculated using vintage 2022 non-bridged population estimates based on the 2020 census.
