Rates are per 100,000 persons and are age-adjusted to the 2000 U.S. standard population.

Cancers of the urinary bladder and female breast include *in situ* cases.

Brain and other central nervous system cancer excludes benign cases.

** Cancer incidence rates for cell sizes with fewer than 16 cases of cancer and cancer mortality rates based on cancer deaths less than 16 are suppressed as they are not stable.

Rates are calculated using the bridged-race population estimates obtained from the National Center for Health Statistics available online at www.cdc.gov/nchs/nvss/bridged_race/data_documentation.htm#vintage2019.
