NORTH CAROLINA STATE BOARD OF HEALTH

J. W. R. NORTON, M.D.

Secretary

and State Health Director

LETTER OF TRANSMITTAL

**Raleigh, North Carolina
October 3, 1962**

**The Honorable Terry Sanford
Governor of North Carolina
Raleigh, North Carolina**

Dear Governor Sanford:

I have the honor of transmitting the Vital Statistics report for the Public Health Statistics Section of the Epidemiology Division, State Board of Health, covering the calendar year 1961.

Respectfully submitted,

**J. W. R. Norton, M. D.
State Health Director**

CONTENTS

TABLE	PAGE
1. Estimated population by color: North Carolina, each county, and incorporated places having a population of 10,000 or more, July 1, 1961.	7
2. Live births and deaths with crude rates per 1,000 population, also maternal deaths with rates per 10,000 live births, infant deaths, and fetal deaths with rates per 1,000 live births: North Carolina, 1914-1961	9
3. Live births by color with crude rates per 1,000 population, by person in attendance: North Carolina, and each county, 1961.....	10
4. Live births by color with crude rates per 1,000 population, by person in attendance: each incorporated place in North Carolina having a population of 10,000 or more, 1961.....	13
5. Resident live births by color and sex, showing month of birth: North Carolina, 1961.....	14
6. Resident live births by color and age of mother, showing birth order: North Carolina, 1961.....	15
7. Resident cases of plural births classified by number of children born alive and stillborn, by color and sex: North Carolina, 1961.....	16
8. Resident live births and deaths filed in 1961 showing number received in time to be included in 1960 or 1961 annual reports: North Carolina and each county.....	17
9. Resident deaths (excluding fetal deaths) from each cause by age, color, and sex with specific death rates per 1,000 population (1960 census) by age, color, and sex for all causes: North Carolina, 1961.....	19
10. Deaths (excluding fetal deaths) by color with crude rates per 1,000 population: North Carolina and each county, 1961	55
11. Deaths (excluding fetal deaths) by color with crude rates per 1,000 population: each incorporated place in North Carolina having a population of 10,000 or more, 1961.....	58
12. Resident deaths (excluding fetal deaths) by cause (abbreviated list of 52 causes), by color: North Carolina and each county, 1961.....	59
13. Resident deaths (excluding fetal deaths) by cause (abbreviated list of 52 causes), by color: each incorporated place in North Carolina having a population of 10,000 or more, 1961.....	77
14. Deaths (excluding fetal deaths) from selected causes with rates: North Carolina, 1921-1961, every fifth year.....	85
15. Leading causes of resident deaths (excluding fetal deaths) by age, color and sex: North Carolina, five-year average, 1957-1961	87

CONTENTS - Continued

16. Motor vehicle and nonmotor vehicle accidental deaths by place of occurrence: North Carolina, each county and each incorporated place having a population of 10,000 or more, 1961.....	90
17. Accidental deaths by cause, color, and sex with crude rates per 100,000 population: North Carolina occurrences, 1961.....	93
18. Resident infant deaths by cause and age: North Carolina, 1961.....	94
19. Resident infant and maternal deaths by color with rates: North Carolina and each county, 1961 and five-year average, 1957-1961.....	96
20. Resident live births, illegitimates, deaths, fetal deaths, infant deaths, and maternal deaths by color (Indians included in "nonwhite") with number occurring in hospitals: North Carolina, each county, urban and rural, 1961.....	99
21. Resident live births, illegitimates, deaths, fetal deaths, infant deaths, and maternal deaths of Indians with number occurring in hospitals: North Carolina, each county, urban and rural, 1961.....	111
22. Resident live births and deaths (excluding fetal deaths) by color and institution of occurrence: North Carolina and each county, 1961.....	112
23. Resident fetal deaths by color and sex with ratios per 1,000 live births: North Carolina and each county, 1961.....	115
24. Resident fetal deaths by color and sex with ratios per 1,000 live births: each incorporated place in North Carolina having a population of 10,000 or more, 1961.....	117
25. Resident fetal deaths by age of mother, color, and attendant with percentage distribution: North Carolina, 1961.....	118
26. Divorces by race, type, and grounds: North Carolina, 1961.....	119
27. Divorces by color and number of children: North Carolina, 1961.....	119
28. Divorces and annulments by county of occurrence: North Carolina, 1961.....	120

INTRODUCTION

The forty-sixth annual report, Part II, of the Public Health Statistics Section presents tabular information regarding North Carolina's population, births, deaths, fetal deaths, and divorces. The majority of the tabulations are by place of residence; selected tabulations, in whole or in part, are given by place of occurrence. Communicable disease morbidity data are shown in Part I of the annual report of the Section which is printed separately.

Reports have been published annually since 1914 with the exception of the years 1918 and 1919.

Certificates of births, deaths, and fetal deaths occurring in 1961 that were filed in 1961 and the first three months of 1962 are included in this report. It is estimated that vital events occurring in 1961 but reported after the first three months of 1962 will comprise less than one per cent of the total 1961 events. There are factual indications that registration in the State has been improving in recent years. The certificates are more complete and accurate and on the average have been filed much more promptly.

Again in 1961 a tabulation was made of all birth and death certificates filed in 1961 by year of occurrence (see 1950 or 1951 annual report for explanation of interpretation). This was done in an effort to determine the per cent of certificates filed in time to be included in an annual report as compared with those filed too late to be included. The results of this study are shown in Table 8 of this report. This tabulation was prepared by county of residence in order to make available a correction factor that could be used by each county to more accurately calculate the natality and mortality rates.

POPULATION

The population data in this report are estimated as of July 1, 1961 by the arithmetic method. This method assumes that each county or city had the same actual annual increase or decrease between 1960 and 1961 that it had on the average each year between 1950 and 1960.

NATALITY

In 1961 there were 111,721 live births occurring to mothers who were residents of the State. All births were allocated to the place of residence of the mother regardless of the place of birth or the length of residence. Births occurring in hospitals, sanatoria, and all other institutions, were allocated to the place where the mother lived. Births occurring on military bases to military personnel were allocated according to the residence shown on the certificate. The crude birth rate was 24.2 births per 1,000 population. There were 76,777 white births and 34,944 nonwhite births. For the sixteenth consecutive year, over 100,000 births were recorded.

This State defines a fetal death as a fetus showing no evidence of life after complete birth if the twentieth week of gestation has been reached. There were 2,186 resident fetal deaths reported, resulting in a ratio of 19.6 fetal deaths per 1,000 live births. If fetal deaths were considered as a single cause of death, they would rank fourth between cancer and influenza and pneumonia as a leading cause of death.

PREMATURE BIRTHS

In order to achieve uniformity in the classification of premature infants in need of special care, and comparability of statistical data in hospitals and in studies of such infants, the definition of the American Academy of Pediatrics has been adopted; that is, a premature infant is an infant weighing 2500 grams (5½ pounds) or less at birth regardless of the period of gestation.

In 1961 there were 10,082 resident premature live births reported among 111,721 live births. Birth weight was reported on all but 77 certificates filed in 1961. Consequently, at least 9.0 per cent of the newborn babies weighed 2500 grams or less at birth. The number of premature infants by birth weight and color and by age of mother and birth weight are shown in the tables which follow:

RESIDENT PREMATURE LIVE BIRTHS BY BIRTH WEIGHT AND COLOR: NORTH CAROLINA, 1961

Birth weight in grams	Total	White	Nonwhite

MORTALITY

There were 37,443 resident deaths recorded in 1961. The crude death rate was 8.1 deaths per 1,000 population. Deaths were allocated to the place where the deceased resided unless the place of death item indicated that the deceased had been in the place of death for one year or more. In such cases they were allocated to the place of death, unless the death occurred in an institution. If this was the case, they were allocated to the place of residence, regardless of the length of stay in the institution.

All mortality statistics shown by cause in this report are classified according to the Seventh Decennial Revision of the International Lists of Diseases and Causes of Death. This is the fourth year that this revised statistical code has been applied to the causes of death. This revision differs slightly, if any, from the Sixth Revision, however.

In Table 14, regarding deaths from selected causes with rates, 1921-1961, it is necessary to take into consideration the effect of the revision of the International List and of the joint cause of death coding procedure in making comparisons between the trend in causes of death since 1949 with prior years. Comparability ratios for specific causes of death may be obtained upon request.

INFANT AND MATERNAL MORTALITY

There were 3,408 infant deaths and 50 maternal deaths reported. The resultant infant death rate per 1,000 live births was 30.5 while the maternal death rate was 4.5 per 10,000 live births.

In 1918 there was an all-time high rate of 101.8 infant deaths per 1,000 live births. The infant mortality rate was more than three times as high at that time as it was in 1961 while the maternal rate was nearly 24 times higher in 1918.

HOSPITAL DATA

All tables in this report which reflect events occurring in hospitals are based on the general and allied hospital definition of the North Carolina Medical Care Commission. A hospital is defined as a place where two or more non-related individuals reside 24 hours or more on the premises and receive medical care over and above any domiciliary care.

RATES

All rates shown in this report are crude rates unless otherwise specified. Such rates have not been adjusted for differences in the age, sex, color, rural or urban distribution of the population, or for underregistration or late reporting. Such factors should be kept in mind when comparing two different areas or time periods.

DIVORCES AND ANNULMENT OF MARRIAGES

Central registration of North Carolina occurrences of divorces and annulments has been in effect since January 1, 1958. There were 6,355 absolute divorces and 85 annulments recorded for the year 1961, representing increases of 6.1% and 23.2% respectively over 1960.

In previous years, a table showing divorces by month of occurrence was included in this report but, although the information is still available on request, this table has been deleted this year in order to provide space for tabular presentation of divorces by race and by number of children.

TABLE 13. — RESIDENT DEATHS (EXCLUDING FETAL DEATHS)
EACH INCORPORATED PLACE* IN NORTH CAROLINA

List number	Cause of Death (Abbreviated list of selected causes with code numbers opposite each cause)	Total deaths		
		Total	White	Non-white
	Total all causes.....	11,445	7,261	4,184
1.	Tuberculosis of respiratory system (001-008).....	52	33	19
2.	Tuberculosis, other forms (010-019).....	7	2	5
3.	Syphilis (020-029).....	19	8	11
4.	Amoebic dysentery (046).....	2	—	2
5.	Other forms of dysentery (045, 047, 048).....	1	1	—
6.	Scarlet fever and streptococcal sore throat (050, 051).....	—	—	—
7.	Diphtheria (055).....	4	—	3
8.	Whooping cough (056).....	2	—	1
9.	Meningococcal infections (057).....	1	—	—
10.	Acute poliomyelitis (080).....	1	—	—
11.	Measles (085).....	—	—	—
12.	Other infective and parasitic diseases (030-044, 049, 052-054, 058-074, 081-084, 086-138).....	49	25	24
13.	Malignant neoplasms, including neoplasms of lymphatic and hematopoietic tissues (140-205).....	1,543	1,085	458
14.	Benign and unspecified neoplasms (210-239).....	42	23	19
15.	Asthma (241).....	33	19	14
16.	Diabetes mellitus (260).....	173	92	81
17.	Anemias (290-293).....	19	7	12
18.	Vascular lesions affecting central nervous system (330-334).....	1,456	890	566
19.	Meningitis, except meningococcal and tuberculous (340).....	22	9	13
20.	Rheumatic fever (400-402).....	6	2	2
21.	Chronic rheumatic heart disease (410-416).....	74	52	22
22.	Arteriosclerotic heart disease, including coronary disease (420).....	2,880	2,190	690
23.	Nonrheumatic chronic endocarditis and other myocardial degeneration (421, 422).....	257	159	98
24.	Other diseases of the heart (430-434).....	269	157	112
25.	Other diseases with heart disease (440-443).....	668	265	403
26.	Hypertension without mention of heart (444-447).....	108	47	61
27.	Arteriosclerosis (450).....	184	132	52
28.	Other diseases of circulatory system (451-468).....	157	103	54
29.	Influenza (480-483).....	19	11	8
30.	Pneumonia (490-493).....	355	188	167
31.	Bronchitis (500-502).....	24	19	5
32.	Ulcer of stomach and duodenum (540, 541).....	56	45	11
33.	Appendicitis (550-553).....	16	8	8
34.	Hernia and intestinal obstruction (560, 561, 570).....	53	35	18
35.	Gastritis, duodenitis, enteritis, and colitis (under 2 years) (543, 571.0, 572, 764).....	27	2	25
36.	Gastritis, duodenitis, enteritis, and colitis (2 years and over) (543, 571.1, 572).....	30	23	7
37.	Cirrhosis of liver (581).....	111	77	34
38.	Nephritis and nephrosis (590-594).....	117	51	66
39.	Infections of kidney (600).....	95	56	39
40.	Sepsis of pregnancy, childbirth and the puerperium (640, 641, 651, 681, 682, 684).....	1	1	—
41.	Other diseases of pregnancy, childbirth, and the puerperium (642-650, 652, 660, 670-680, 683, 685-689).....	23	9	14
42.	Congenital malformations (750-759).....	150	109	41
43.	Birth injuries, postnatal asphyxia, and atelectasis (760-762).....	287	149	138
44.	Infections of newborn, except diarrhea of newborn (763, 765-768).....	45	16	29
45.	Other diseases peculiar to early infancy (769-773).....	114	59	55
46.	Immaturity with mention of any other subsidiary condition and immaturity unqualified (774, 776).....	182	90	92
47.	Symptoms, senility and ill-defined conditions (780-795).....	244	75	169
48.	All other diseases (residual).....	546	372	176
49.	Motor vehicle accidents (810-835).....	288	266	82
50.	All other accidents (800-802, 840-862).....	336	197	141
51.	Suicide (963, 970-979).....	136	114	22
52.	Homicide and injury resulting from operations of war (769, 965, 980-989).....	159	44	115
