Executive Summary

Bladen County is pleased to present its 2018 Community Health Needs Assessment. This report provides an overview of the methods and process used to identify and prioritize significant health needs in Bladen County.

Service Area

The service area for this report is defined as the geographical boundary of Bladen County, North Carolina. Bladen County is located inland and is the fourth largest county by land area. The county has a total area of 887 square miles, of which 874 is land and 13 square miles is water.

Methods for Identifying Community Health Needs

Secondary Data

Secondary data used for this assessment were collected and analyzed from Conduent HCI's community indicator database. The database, maintained by researchers and analysts at Conduent HCI, includes over 100 community indicators from various state and national data sources such as the North Carolina Department of Health and Human Services, the Centers for Disease Control and Prevention and the American Community Survey. See Appendix B for a full list of data sources used.

Indicator values for Bladen County were compared to North Carolina counties and U.S. counties to identify relative need. Other considerations in weighing relative areas of need included comparisons to North Carolina state values, comparisons to national values, trends over time, Healthy People 2020 targets and Healthy North Carolina 2020 targets. Based on these seven different comparisons, indicators were systematically ranked from high to low need. For a detailed methodology of the analytic methods used to rank secondary data indicators see Appendix B.

Primary Data

The primary data used in this assessment consisted of (1) a community survey distributed through online and paper submissions and (4) focus group discussions. Over 400 Bladen County residents contributed their input on the community's health and health-related needs, barriers, and opportunities, with special focus on the needs of vulnerable and underserved populations.

See **Appendix C** for all primary data collection tools used in this assessment.

Summary of Findings

The CHNA findings are drawn from an analysis of an extensive set of secondary data (over 100 indicators from national and state data sources) and in-depth primary data from community leaders, health and non-health professionals who serve the community at large, vulnerable populations, and populations with unmet health needs. Through a synthesis of the primary and secondary data the significant health needs were determined for Bladen County and are displayed in Table 1 on the next page.

Table 1. Significant Health Needs

Access to Health Services
Diabetes
Economy
Exercise, Nutrition & Weight
Heart Disease & Stroke
Maternal, Fetal & Infant Health
Prevention & Safety
Substance Abuse

Selected Priority Areas

The prioritization process identified 3 focus areas: **(1)** Exercise, Nutrition and Weight **(2)** Substance Abuse **(3)** New and Emerging Issue identified as Maternal, Fetal & Infant Health.

Conclusion

This report describes the process and findings of a comprehensive health needs assessment for the residents of Bladen County, North Carolina. The prioritization of the identified significant health needs will guide community health improvement efforts of Bladen County. Following this process, Bladen County will outline how they plan to address the prioritized health needs in their implementation plan.

Introduction

Bladen County is pleased to present the 2018 Community Health Needs Assessment, which provides an overview of the significant community health needs identified in Bladen County, North Carolina.

The goal of this report is to offer a meaningful understanding of the most pressing health needs across Bladen County, as well as to guide planning efforts to address those needs. Special attention has been given to the needs of vulnerable populations, unmet health needs or gaps in services, and input gathered from the community.

Findings from this report will be used to identify, develop and target initiatives to provide and connect community members with resources to improve the health challenges in their communities.

The 2018 Bladen County Community Health Needs Assessment was developed through a partnership between the Bladen County Department of Health & Human Services, Cape Fear Valley Hospital, Health ENC and Conduent Healthy Communities Institute, with Cape Fear Valley Hospital serving as the fiscal sponsor.

About Health ENC

Initiated in 2015 by the Office of Health Access at the Brody School of Medicine at East Carolina University, Health ENC grew out of conversations with health care leaders about improving the community health needs assessment (CHNA) process in eastern North Carolina. Health ENC, now a program of the Foundation for Health Leadership and Innovation (FHLI), coordinates a regional CHNA in 33 counties of eastern North Carolina. In addition, the Health ENC Program Manager works to build coalitions and partnerships that will address health issues identified through the regional CHNA process.

As part of the Affordable Care Act, not for profit and government hospitals are required to conduct CHNAs every three years. Similarly, local health departments in North Carolina are required by the Division of Public Health (DPH) in the NC Department of Health and Human Services (DHHS) to conduct periodic community health assessments as well. Local health departments have been required to submit their community health needs assessments once every four years. The particular year CHNA submissions are made by hospitals within a three-year cycle or by local health departments within a four-year cycle is not uniform across the state or region.

Additionally, although local health departments and hospitals have guidance from their respective oversight authorities on how to conduct and report the results of their CHNAs, that guidance allows for wide variations in the execution of these reports. The methodologies, specific data items gathered, the interpretation of the data as well as the general approach and scope of one CHNA may have little resemblance to a CHNA in another jurisdiction or conducted by another organization.

For these reasons, health care leaders across eastern North Carolina have partnered to standardize the CHNA process for health departments and hospitals in the region. This effort will also sync all participant organizations on to the same assessment cycle. Combining efforts of local health departments and hospitals in a regional CHNA will ultimately lead to an improvement in the quality and utility of population health data, the ability to compare and contrast information and interventions across geographic boundaries, and the reduction of costs for everyone involved, while maintaining local control and decision-making with regard to the selection of health priorities and interventions chosen to

address those priorities. Simultaneously, it will create opportunities for new and better ways to collaborate and partner with one another.

Upon receipt of generous funding support provided by The Duke Endowment, the Office of Health Access at ECU's Brody School of Medicine transferred administrative and operational responsibility for Health ENC to the Foundation for Health Leadership and Innovation in 2018. The project continues to be guided by a steering committee representing local health departments, hospitals and other stakeholders committed to improving the health of the people of eastern North Carolina.

Member Organizations

Health ENC is comprised of more than 40 organizations. Twenty-two hospitals, twenty-one health departments and two health districts participated in the regional CHNA.

Partner Organizations

- Foundation for Health Leadership & Innovation
- ECU Brody School of Medicine
- The Duke Endowment

Hospitals and Health Systems

- Cape Fear Valley Health (Cape Fear Valley Medical Center, Hoke Hospital and Bladen County Hospital)
- Carteret Health Care
- Halifax Regional Medical Center
- Johnston Health
- UNC Lenoir Health Care
- Nash Health Care System
- Onslow Memorial Hospital
- The Outer Banks Hospital
- Pender Memorial Hospital
- Sampson Regional Medical Center
- Sentara Albemarle Medical Center
- Vidant Beaufort Hospital
- Vidant Bertie Hospital
- Vidant Chowan Hospital
- Vidant Duplin Hospital
- Vidant Edgecombe Hospital
- Vidant Medical Center
- Vidant Roanoke-Chowan Hospital
- Wayne UNC Health Care
- Wilson Medical Center

Health Departments and Health Districts

- Albemarle Regional Health Services
- Beaufort County Health Department
- Bladen County Health Department
- Carteret County Health Department

- Cumberland County Health Department
- Dare County Department of Health and Human Services
- Duplin County Health Department
- Edgecombe County Health Department
- Franklin County Health Department
- Greene County Department of Public Health
- Halifax County Public Health System
- Hoke County Health Department
- Hyde County Health Department
- Johnston County Public Health Department
- Lenoir County Health Department
- Martin-Tyrrell-Washington District Health Department
- Nash County Health Department
- Onslow County Health Department
- Pamlico County Health Department
- Pitt County Health Department
- Sampson County Health Department
- Wayne County Health Department
- Wilson County Health Department

Steering Committee

Health ENC is advised by a Steering Committee whose membership is comprised of health department and hospital representatives participating in the regional CHNA, as well as other health care stakeholders from eastern North Carolina. The program manager oversees daily operations of the regional community health needs assessment and Health ENC.

Health ENC Program Manager

- Will Broughton, MA, MPH, CPH - Foundation for Health Leadership & Innovation

Health ENC Steering Committee Members

- Constance Hengel, RN, BSN, HNB-BC - Director, Community Programs and Development, UNC Lenoir Health Care
- James Madson, RN, MPH - Steering Committee Chair, Health Director, Beaufort County Health Department
- Battle Betts - Director, Albemarle Regional Health Services
- Caroline Doherty - Chief Development and Programs Officer, Roanoke Chowan Community Health Center
- Melissa Roupe, RN, MSN - Sr Administrator, Community Health Improvement, Vidant Health
- Davin Madden – Health Director, Wayne County Health Department
- Angela Livingood – Pharmacy Manager, Pender Memorial Hospital
- Lorrie Basnight, MD, FAAP - Executive Director, Eastern AHEC, Associate Dean of CME, Brody School of Medicine
- Anne Thomas- President/CEO, Foundation for Health Leadership & Innovation

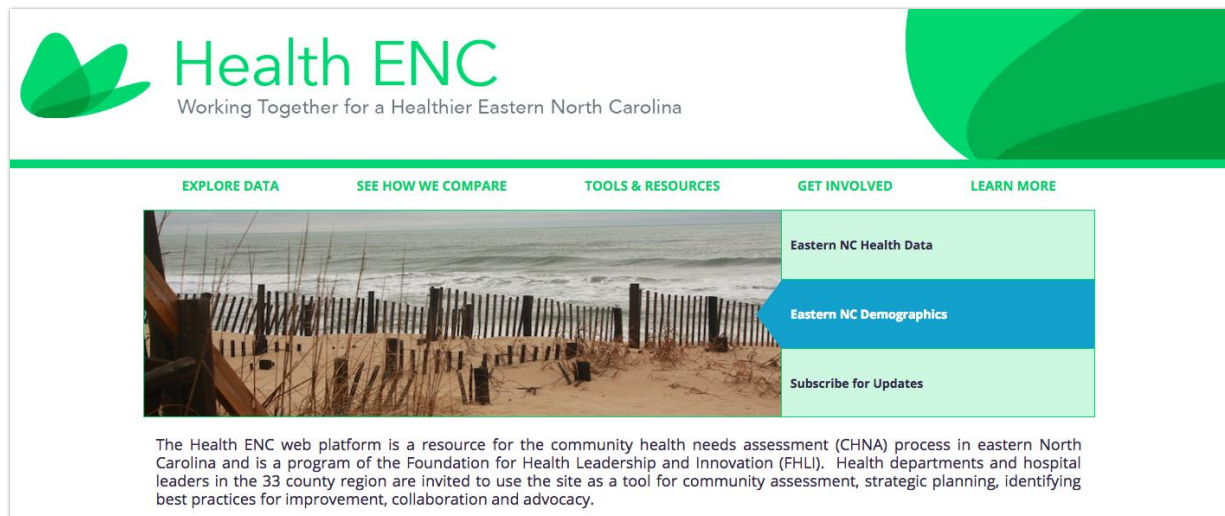

HealthENC.org

The [Health ENC](https://HealthENC.org) web platform, shown in Figure 1, is a resource for the community health needs assessment process in eastern North Carolina. The website serves as a “living” data platform, providing public access to indicator data that is continuously updated, easy to understand and includes comparisons for context. Much of the data used in this assessment is available on HealthENC.org and can be downloaded in multiple formats. Results of the 2018 Eastern North Carolina Community Health Survey can be downloaded by county or the entire Health ENC Region.

In addition to indicator data, the website serves as a repository for local county reports, funding opportunities, 2-1-1 resources and more. Health departments, hospital leaders and community health stakeholders in the 33-county region are invited to use the website as a tool for community assessment, strategic planning, identifying best practices for improvement, collaboration and advocacy.

Visit HealthENC.org to learn more.

Figure 1. Health ENC Online Data Platform

Consultants

Health ENC commissioned Conduent Healthy Communities Institute (HCI) to assist with its Community Health Needs Assessment.

Conduent Healthy Communities Institute is a multi-disciplinary team of public health experts, including healthcare information technology veterans, academicians and former senior government officials, all committed to help health-influencing organizations be successful with their projects. Conduent HCI uses collaborative approaches to improve community health and provides web-based information systems to public health, hospital and community development sectors, to help them assess population health.

Conduent HCI works with clients across 38 states to drive improved community health outcomes by assessing needs, developing focused strategies, identifying appropriate intervention programs, establishing progress monitoring systems, and implementing performance evaluation processes. Working with diverse clients nationwide has contributed to Conduent HCI's national knowledge base of population health solutions. In addition, by engaging directly with clients and communities through the primary data collection process and final workshops, Conduent HCI works on behalf of our clients to build trust between and among organizations and their communities.

To learn more about Conduent HCI, please visit <https://www.conduent.com/community-population-health/>.

Bladen County (Hospital/Health Department/Collaborative CHNA Community Health Team

This document was completed by the following organizations:

- ❖ **Cape Fear Valley Bladen County Hospital**
- ❖ **Bladen County Health Department**

This document is one of many collaborative efforts between Cape Fear Valley (CFV) Bladen County Hospital and Bladen County Health Department. CFV Bladen County Hospital is our one and only, local county hospital. The hospital and the health department serve on many projects and committees together, and have developed a supportive and collaborative relationship with one another.

Community Health Team Structure

The CHNA Steering Committee is made up of the following agencies and members:

- ❖ **Cape Fear Valley Bladen County Hospital- Teresa Duncan**
- ❖ **Cape Fear Valley Bladen County Hospital- Diana Harris**
- ❖ **Cape Fear Valley- Will Haithcock**
- ❖ **Bladen County Commissioner- Charles Ray Peterson**
- ❖ **Bladen County Manager- Greg Martin**
- ❖ **Bladen Community College- Tiina Mundy**
- ❖ **Innovative Approaches- April Oxendine**
- ❖ **Department of Social Services- Jill Sampson**
- ❖ **Bladen County Schools- Susan Lanier**
- ❖ **Bladen County Library- Kelsey Edwards**
- ❖ **Bladen County Health Department- Marianne Valentiner**
- ❖ **Bladen County Health Department- Monique Travise**

Evaluation of Progress Since Prior CHNA

The CHNA cycle occurs every three years as a collaboration effort between the health department and the hospital, in which a document is submitted to the state.

As part of the 2015 Community Health Needs Assessment, Heart Disease, Cancer and Diabetes/Obesity were selected as prioritized health needs. CFVHS hosted over 100 outreach events throughout our service area in 2017 to address the issues. Preventive education, screening, and support groups were just a few of the ways we address our community needs. The CFVHS foundation funds nearly 200 screening mammograms each year to catch breast cancer in earlier stages. CPR instruction and Blood Pressure checks are a service we offer at most outreach events. Our Residency program fosters outreach amongst our residents, and in their first year they performed over 600 blood pressure screenings at events. Our Pediatric Diabetes Family Fun Run helped raise awareness and provide education to 220 people in our community. We will continue our aggressive outreach efforts to help educate our patients about the various risk factors associated with all the identified needs. The health system has added new access points in the forms of urgent care and primary care practices so patients have greater access to physicians. We are strengthening our relationships with our local health departments and identifying potential collaborations with community stakeholders.

A detailed table describing the strategies/action steps and indicators of improvement for each priority area can be found in Appendix A.

C Community Feedback on Prior CHNA

The 2015 Bladen County Community Health Needs Assessment was made available to the public via (<http://www.capefearvalley.com/downloads/CHNA/Bladen-Hospital-CHNA%202016.pdf>).

Community members were invited to submit feedback via phone, email or mail. No comments had been received on the preceding CHNA at the time this report was written.

Methodology

Overview

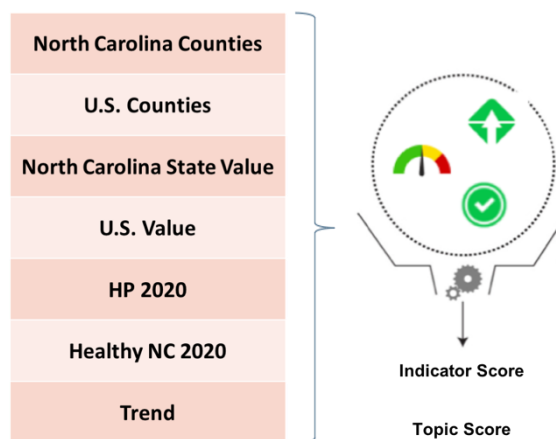

Two types of data are analyzed for this Community Health Needs Assessment: secondary data and primary data. Secondary data is data that has been collected from other sources while primary data has been collected directly as a part of this report. Each type of data is analyzed using a unique methodology, and findings are organized by health topic areas. These findings are then synthesized for a comprehensive overview of the health needs in Bladen County.

Secondary Data Sources & Analysis

The main source of the secondary data used for this assessment is [HealthENC.org](http://www.healthenc.org)¹, a web-based community health platform developed by Conduent Healthy Communities Institute. The Health ENC dashboard brings non-biased data, local resources, and a wealth of information in one accessible, user-friendly location. The secondary data analysis was conducted using Conduent HCI's data scoring tool, and the results are based on the 145 health and quality of life indicators that were queried on the Health ENC dashboard on July 18, 2018. The data are primarily derived from state and national public data sources. For each indicator on the platform, there exist several comparisons to assess Bladen County's status, including how Bladen County compares to other communities, whether health targets have been met, and the trend of the indicator value over time.

Conduent HCI's data scoring tool systematically summarizes multiple comparisons to rank indicators based on highest need (Figure 2). For each indicator, the Bladen County value is compared to a distribution of North Carolina and U.S. counties, state and national values, Healthy People 2020 targets, Healthy North Carolina 2020 targets, and the trend over the four most recent time periods of measure. Each indicator is then given a score based on the available comparisons. The scores range from 0 to 3, where 0 indicates the best outcome and 3 indicates the worst outcome. Availability of each type of comparison varies by indicator and is dependent upon the data source, comparability with data collected from other communities, and changes in methodology over time. The indicators are grouped into topic areas for a higher-level ranking of community health needs.

Figure 2. Secondary Data Scoring

Please see Appendix B for further details on the secondary data scoring methodology.

¹ Health ENC is an online platform that provides access to health, economic and quality of life data, evidence-based programs, funding opportunities and other resources aimed at improving community health. The platform is publicly available and can be accessed at <http://www.healthenc.org/>.

Health and Quality of Life Topic Areas

Table 2 shows the health and quality of life topic areas into which indicators are categorized. These topic areas are broadly based on the Healthy People 2020 framework, with each topic area containing multiple indicators. The five topic areas exhibiting the most significant need as evidenced by the secondary data analysis are included for in-depth exploration in the data findings. Four topic areas specific to population subgroups, including Children's Health, Men's Health, Women's Health, and Older Adults & Aging, include indicators spanning a variety of topics. If a particular subgroup receives a high topic score, it is not highlighted independently as one of the top 5 findings but is discussed within the narrative as it relates to highly impacted populations. Three additional categories (County Health Rankings, Mortality Data, and Wellness & Lifestyle) are not considered for in-depth exploration, since all three are general categories that include indicators spanning a wide variety of topics. Topic areas with fewer than three indicators are considered to have data gaps and do not receive topic scores. These topics are indicated by an asterisk in Table 2.

Table 2. Health and Quality of Life Topic Areas

Access to Health Services	Family Planning*	Prevention & Safety
Cancer	Food Safety*	Public Safety
Children's Health*	Heart Disease & Stroke	Respiratory Diseases
County Health Rankings	Immunizations & Infectious Diseases	Social Environment
Diabetes	Maternal, Fetal & Infant Health	Substance Abuse
Disabilities*	Men's Health*	Teen & Adolescent Health*
Economy	Mental Health & Mental Disorders	Transportation
Education	Mortality Data	Vision*
Environment	Older Adults & Aging	Wellness & Lifestyle
Environmental & Occupational Health	Other Chronic Diseases	Women's Health
Exercise, Nutrition, & Weight	Oral Health*	

*Topic area has fewer than 3 indicators and is considered a data gap. No topic score is provided.

Health ENC Region Comparison

When available, county-level data are compared to the state of North Carolina, as well as Health ENC Counties. The Health ENC region consists of 33 counties in eastern North Carolina participating in the regional CHNA: Beaufort, Bertie, Bladen, Camden, Carteret, Chowan, Cumberland, Currituck, Dare, Duplin, Edgecombe, Franklin, Gates, Greene, Halifax, Hertford, Hoke, Hyde, Johnston, Lenoir, Martin, Nash, Onslow, Pamlico, Pasquotank, Pender, Perquimans, Pitt, Sampson, Tyrrell, Washington, Wayne and Wilson. Values for the Health ENC region were calculated by aggregating data from these 33 counties.

Primary Data Collection & Analysis

To expand upon the information gathered from the secondary data, Health ENC Counties collected community input. Primary data used in this assessment consists of focus groups and both an English-language and Spanish-language community survey. All community input tools are available in Appendix C.

Community Survey

Community input was collected via a 57-question online and paper survey available in both English and Spanish. Survey Monkey was the tool used to distribute and collect responses for the community survey. Completed paper surveys were entered into the Survey Monkey tool.

The community survey was distributed across Health ENC's entire survey area from April 18, 2018 – June 30, 2018.

Survey Distribution

The CHNA surveys were distributed in Spanish and English through survey links and in paper form. The survey links were shared through the CHNA Steering Committee, local media sites (Bladen Online and Bladen Journal), Bladen County Employee list serve, and Healthy Bladen Collaborative Partners, via link through email to share within their respective agencies and contacts. The electronic version was shared within the Cape Fear Valley Bladen Hospital system and provided to staff via link through email and paper copies. Paper copies were given to Jury Duty participants on two separate jury duty dates. Paper copies were given out at hospital and health department clinics. Additional Spanish paper surveys were taken to local Hispanic stores and restaurants. Due to budgetary restrictions, incentives were not provided to survey participants. Majority of survey participants completed the survey via electronic form.

Table 3 summarizes the number of survey respondents. A total of 18,917 responses were collected across all 33 counties, with a survey completion rate of 86.5%, resulting in 16,358 complete responses across the entire survey area. A total of 452 responses were collected from Bladen County residents, with a survey completion rate of 88.3%, resulting in 399 complete responses from Bladen County. The survey analysis included in this CHNA report is based on complete responses.

Table 3. Survey Respondents

Service Area	Number of Respondents*		
	English Survey	Spanish Survey	Total
All Health ENC Counties	15,917	441	16,358
Bladen County	388	11	399

*Based on complete responses

Survey participants were asked a range of questions related - but not limited - to: what populations are most negatively affected by poor health outcomes in Bladen County, what their personal health challenges are, and what the most critical health needs are for Bladen County. The survey instrument is available in Appendix C.

Demographics of Survey Respondents

The following charts and graphs illustrate Bladen County demographics of the community survey respondents. Among Bladen County survey participants, 26.2% of respondents were between the ages of 15 and 39 while the highest concentration of respondents (61.8%) grouped into the 40-64 age range. Only 12% of respondents were over 65 years old. The majority of respondents were female (77.4%), White (70.8%), spoke English at home (97.1%) and Not Hispanic (95.1%). The majority of survey respondents had some exposure to higher education, with the highest share of respondents (25.8 %) having Associate's Degrees or Vocational training and the next highest share of respondents (19.7%) having a Bachelor's degree followed closely behind by those with some college experience, no degree (19.5%) (Figure 3).

Figure 3. Education of Community Survey Respondents

As shown in Figure 4, the highest share of respondents were employed full-time (69.2 %) and the next highest share of respondents were either employed part time (11.1 %) or retired (11.1%). Household annual incomes varied amongst the community survey participants, 30.6% had a household income that totaled less than \$34,999 before taxes. 41.1% of respondents had a household income that totaled between \$35,000 and \$74,999 before taxes while 28.4% had a household income over \$75,000 before taxes. The average household size was 2.8 individuals.

Figure 4. Employment Status of Community Survey Respondents

Figure 5 shows the health insurance coverage of community survey respondents. More than half of survey respondents have health insurance provided by their employer (57.0%) or their spouse's employer (12.1%), while 27.5% have Medicare and 3.0% have no health insurance of any kind.

Figure 5. Health Care Coverage of Community Survey Respondents

Overall, the community survey participant population consisted of white, non-Hispanic, women with some higher education and employed full-time. The survey was a convenience sample survey, and thus the results are not representative of the community population as a whole.

Key findings from select questions on the community survey are integrated into this report by theme or topic area, with an emphasis on the most significant needs as evidenced by both primary and secondary data. This approach is intended to offer a meaningful understanding of health needs. A summary of full survey results (all 57 questions) is available on HealthENC.org. Full results can be downloaded by county or for the entire Health ENC Region.

Focus Group Discussions

Another form of community input was collected through focus groups. Focus groups are carefully constructed dialogues that invite diverse groups of people to discuss important and pressing issues. Focus groups provide community members an opportunity to engage in productive learning and sharing sessions. Focus group discussions focused on community strengths, opportunities for improvement, existing resources, health needs, and possible solutions for improving the health of Bladen County. A list of questions asked at the focus groups is available in Appendix C.

The purpose of the focus groups for Health ENC's 2018 CHNA/CHA was to engage with a broad cross-section of individuals from each county, such as migrant worker groups, healthcare workers, or county employees, to name a few.

Conduent HCI consultants developed a Focus Group Guide and led training webinars for Health ENC members. Topics included facilitation techniques, moderator and note taker roles, as well as tips and expectations for documenting focus group discussions. The list of focus group questions was reviewed and a transcript was provided for documentation purposes.

Focus groups were scheduled with meetings with collaborative partners in the county. Notifications and requests were communicated via email and telephone. The Healthy Bladen Collaborative served as a focus group, which is made up of surrounding agency representatives. Members represented the library, 4H, Smart Start, etc. The second group consisted of the School Health Advisory Council committee members, which represented school personnel from the county schools. These were principals, administrative, teachers and school nurses. Incentives were not provided to the participants due to budget restrictions.

Four focus group discussions were completed within Bladen County between May 29, 2018 – August 3, 2018 with a total of 34 individuals. Participants included community members and health and school officials. Table 4 shows the date, location, population type, and number of participants for each focus group.

Table 4. List of Focus Group Discussions

Date Conducted	Focus Group Location	Population Type	Number of Participants
5/29/2018	Bladen County Health Department	Healthy Bladen Collaborative	9
6/25/2018	Bladen County Board of Education	School Health Advisory Council	9
7/31/2018	Participant's Home	Women, >65	7
8/03/2018	Bladen County Health Department	Health Department Staff	9

Focus group transcripts were coded and analyzed by common theme. The frequency with which a topic area was discussed in the context of needs and concerns or barriers and challenges to achieving health was used to assess the relative importance of the need in the community. Key themes that emerged from the focus group discussions are integrated into this report by topic area, with an emphasis on the most significant needs as evidenced by both primary and secondary data. A deeper analysis of focus group findings is available on [HealthENC.org](https://www.healthenc.org).

Results of the focus group dialogues further support the results from other forms of primary data collected (the community survey) and reinforces the findings from the secondary data scoring. By synthesizing the discussions that took place at the focus groups in tandem with the responses from the community survey, the primary data collection process for Bladen County is rich with involvement by a representative cross section of the community.

Data Considerations

Several limitations of the data should be considered when reviewing the findings presented in this report. Although the topics by which data are organized cover a wide range of health and health-related areas, within each topic there is a varying scope and depth of data availability. In some topics there is a robust set of secondary data indicators, but in others there may be a limited number of indicators for which data is collected, or limited subpopulations covered by the indicators.

Data scores represent the relative community health need according to the secondary data that is available for each topic and should not be considered to be a comprehensive result on their own. In addition, these scores reflect what was found in the secondary data for the population as a whole, and do not factor in the health or socioeconomic need that is much greater for some subpopulations. In addition, many of the secondary data indicators included in the findings are collected by survey, and though methods are used to best represent the population at large, these measures are subject to instability—especially among smaller populations.

The disparities analysis, used to analyze the secondary data, is also limited by data availability. In some instances, data sources do not provide subpopulation data for some indicators, and for other indicators, values are only available for a select number of race/ethnic groups. Due to these limitations, it is not possible to draw conclusions about subpopulation disparities for all indicators.

The breadth of primary data findings is dependent on several factors. Focus group discussion findings were limited by which community members were invited to and able to attend focus group discussions, as well as language barriers during discussion for individuals whose native language is not English. Because the survey was a convenience sample survey, results are vulnerable to selection bias, making findings less generalizable for the population as whole.

Prioritization

The methodology used when setting the priorities was first the *Prioritization Matrix* and then the *Dot Method/Dotmocracy*, to further narrow down the priorities determined from the first meeting.

There were two sessions/meetings held to determine the priorities for the CHNA.

The meetings are detailed on the next page.

Meeting 1 took place on January 18th, 2019 at 3 pm at the Bladen County Health Department.

9 Individuals were in attendance.

Agencies Represented:

- ❖ Bladen County Commissioner
- ❖ Bladen County Manager
- ❖ CFV Bladen County Hospital
- ❖ Innovative Approaches
- ❖ Bladen Community College
- ❖ Department of Social Services
- ❖ Bladen County Library
- ❖ Bladen County Health Department

Prioritization methods used for the first meeting were the prioritization matrix, where we narrowed down from our 8 identified health needs.

Meeting 2 took place on January 28th, 2019 at 9 am at the Bladen County Health Department.

9 individuals were in attendance.

Agencies Represented:

- ❖ Innovative Approaches
- ❖ Bladen County Library
- ❖ CFV Bladen County Hospital
- ❖ Department of Social Services
- ❖ Bladen County Schools
- ❖ Bladen County Health Department

The criteria used to determine the priorities were the *8 identified health needs* documented within this report. We examined each health need and the impact of addressing these needs in detail. This process allowed us to narrow down our priorities for the second meeting down to the top three. You can find the detailed prioritization process and notes within the **Appendix E.** section of this document.

Overview of Bladen County

A Coastal Plain county, and one of the largest in North Carolina, Bladen County is rightfully named the “Mother County”. In 2016, the United State Census estimates 33,741 people populate Bladen County’s 887 square miles. Agriculture still thrives here with pork, poultry, blueberries, cotton and peanut industries to be among the most profitable.

Bladen has nine elected County Commissioner Officials. Elizabethtown, Bladenboro, Clarkton, Dublin, East Arcadia, Tar Heel and White Lake are each governed by a mayor and Council Members or Town Commissioners. Elizabethtown is the county seat of Bladen County.

Currently there is one centrally located park that is located just outside of Elizabethtown. This park includes baseball and soccer fields, a playground, picnic tables, tennis courts, and a walking trail. The towns of Clarkton, Elizabethtown and Bladenboro offer parks with baseball fields and a walking trail for public use.

Bladen has many lakes and natural forests from which the county is known. White Lake Resort, Jones Lake State Park, Singletary Lake State Park, and Bladen Lakes State Forest, that provide walking trails, camping, hiking, canoeing and swimming to increase physical activity opportunities for visitors and county residents. The town of Elizabethtown recently constructed paved biking/walking pathways as well as the added trails and playground at Tory Hole Park, and a new Bryant’s Creek bike/hiking trail. There is also a skate park ramp that has been added. Our county has two large high schools, East Bladen and West Bladen which provides a resource of walking tracks around the football fields, and tennis courts.

Although we have many great features that surround us and lots of land space, our county lacks community walking trails and parks in each community. Elizabethtown, although a central spot for work, dining, and shopping, is far-removed from the outlying communities where most people live. Residents in these communities could be as far away as 30 miles from one of these locations, not close enough in proximity for daily use for physical activity. There is much need, as evidenced by the opinion of the survey participant’s responses and focus group’s feedback, that our county needs more physical activity opportunities for all citizens, especially our youth.

Within Bladen County, we have seen an increased growth in our Hispanic population. According to the 2016 Census Report, Bladen County’s Hispanic rate is 7.7%. This is reflected in the clients served in Bladen County Clinics, whether migrant workers and their families are moving through, or permanent residents.

Demographic Profile

The demographics of a community significantly impact its health profile. Population growth has an influence on the county's current and future needs. Specific population subgroups, including veterans and different age, gender, race and ethnic groups, may have unique needs and require varied approaches to health improvement efforts. The following section explores the demographic profile of Bladen County, North Carolina.

Population

According to the U.S. Census Bureau's 2016 population estimates, Bladen County has a population of 33,741 (Figure 6). The population of Bladen County has decreased from 2013 to 2016.

Figure 6. Total Population (U.S. Census Bureau)

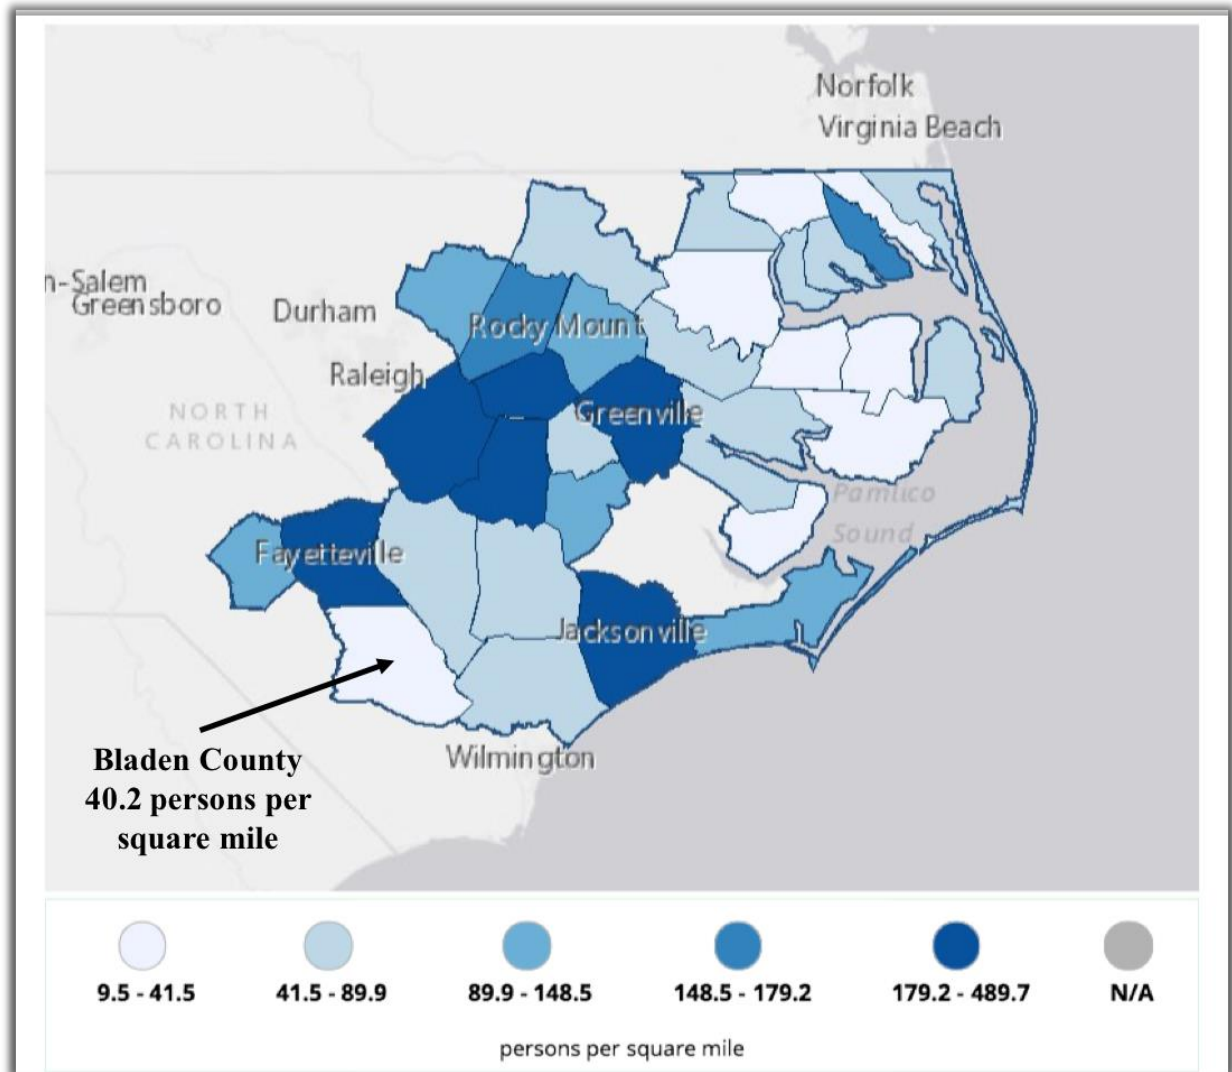

Figure 7 shows the population density of Bladen County compared to other counties in the Health ENC region. Bladen County has a population density of 40.2 persons per square mile.

Figure 7. Population Density of Health ENC Counties (U.S. Census Bureau, 2010)

Age and Gender

Overall, Bladen County residents are older than residents of North Carolina and the Health ENC region. Figure 8 shows the Bladen County population by age group. The 45-54 age group contains the highest percent of the population at 13%, while the 65-74 age group contains the next highest percent of the population at 12.1%.

Figure 8. Population by Age (U.S. Census Bureau, 2016)

People 65 years and older comprise 20.1% of the Bladen County population, compared to 15.5% in North Carolina and 15.2% in the Health ENC counties (Figure 9).

Figure 9. Population 18+ and 65+ (U.S. Census Bureau, 2016)

Males comprise 47.7% of the population, whereas females comprise 52.3% of the population (Table 5). The median age for males is 42.4 years, whereas the median age for females is 45.5 years. Both are higher than the North Carolina median age (37.2 years for males and 40.1 years for females).

Table 5. Population by Gender and Age (U.S. Census Bureau, 2016)

	Percent of Total Population		Percent of Male Population		Percent of Female Population		Median Age (Years)	
	Male	Female	18+	65+	18+	65+	Male	Female
Bladen County	47.7%	52.3%	77.3%	18.3%	80.0%	21.8%	42.4	45.5
North Carolina	48.6%	51.4%	76.3%	13.9%	78.4%	17.0%	37.2	40.1
Health ENC Counties	49.2%	50.8%	75.8%	13.5%	77.5%	16.9%	N/A	N/A

Birth Rate

Birth rates are important measures of population health. The birth rate is usually the dominant factor in determining the rate of population growth; however, population growth is also driven by the age structure of the population (e.g., deaths), immigration and emigration. Figure 10 illustrates that the birth rate in Bladen County (9.7 live births per 1,000 population in 2016) is lower than the birth rate in North Carolina (12.0) and Health ENC counties (13.1). Further, birth rates have decreased slightly over the past three measurement periods in all three jurisdictions.

Figure 10. Birth Rate (North Carolina State Center for Health Statistics)

Race/Ethnicity

The race and ethnicity composition of a population is important in planning for future community needs, particularly for schools, businesses, community centers, health care and child care. Race and ethnicity data are also useful for identifying and understanding disparities in housing, employment, income and poverty.

Figure 11 shows the racial and ethnic distribution of Bladen County compared to North Carolina and Health ENC counties. The first six categories (White, Black or African American, American Indian or Alaska Native, Asian, Native Hawaiian & Other Pacific Islander and Multiracial) are racial groups and may include persons that identify as Hispanic or Latino. The seventh category (Hispanic or Latino) is an ethnic group and may include individuals that identify as any race.

The White population accounts for 60.8% of the total population in Bladen County, with the Black or African American population accounting for 34.2% of the total population. The proportion of residents that identify as White is smaller in Bladen County (60.8%) as compared to North Carolina (71.0%) and Health ENC counties (63.8%). Bladen County has a larger share of residents that identify as Black or African American (34.3%) when compared to North Carolina (22.2%) and Health ENC counties (30.7%). The Hispanic or Latino population comprises 7.7% of Bladen County.

Figure 11. Population by Race/Ethnicity (U.S. Census Bureau, 2016)

Tribal Distribution of Population

The U.S. Census Bureau collects population estimates for various American Indian and Alaska Native (AIAN) tribes. While population estimates of tribal data are not available at the county level, Table 6 shows the population estimates of eight tribal areas throughout the state of North Carolina.

Table 6. Named Tribes in North Carolina (American Community Survey, 2012-2016)

State Designated Tribal Statistical Area (SDTSA)	Total Population
Coharie SDTSA	62,160
Eastern Cherokee Reservation	9,613
Haliwa-Saponi SDTSA	8,700
Lumbee SDTSA	502,113
Meherrin SDTSA	7,782
Occaneechi-Saponi SDTSA	8,938
Sappony SDTSA	2,614
Waccamaw Siouan SDTSA	2,283

Military Population

Figure 12 shows the percent of the population 16 years of age and older in the military (armed forces). Over the four most recent measurement periods, approximately 0% of Beaufort County residents aged 16 years and older were in the military. In comparison, 1.0% of North Carolina residents aged 16 years and older and 4.0% of residents from Health ENC Counties were in the military in 2012-2016.

Figure 12. Population in Military / Armed Forces (American Community Survey)

Veteran Population

The veteran population is given as a percent of the civilian population aged 18 years and older and this data is used for policy analyses, to develop programs, and to create budgets for veteran programs and facilities. Bladen County has a veteran population of 6.7% in 2012-2016, compared to 9.0% for North Carolina and 12.4% for Health ENC counties (Figure 13).

Figure 13 also shows that the veteran population of Bladen County, North Carolina, and the Health ENC region is decreasing slightly across four time periods from 2009-2013 to 2012-2016.

Figure 13. Veteran Population (American Community Survey, 2012-2016)

Socioeconomic Profile

Social and economic factors are well known to be strong determinants of health outcomes – those with a low socioeconomic status are more likely to suffer from chronic conditions such as diabetes, obesity and cancer. Community health improvement efforts must determine which subpopulations are most in need in order to effectively focus services and interventions.

NC Department of Commerce Tier Designation

The North Carolina Department of Commerce annually ranks the state's 100 counties based on economic well-being and assigns each a Tier designation. The 40 most distressed counties are designated as Tier 1, the next 40 as Tier 2 and the 20 least distressed as Tier 3.

Bladen County has been assigned a Tier 1 designation for 2018.

Income

Median household income reflects the relative affluence and prosperity of an area. Areas with higher median household incomes are likely to have a greater share of educated residents and lower unemployment rates. Figure 14 shows the median household income in Bladen County (\$30,408), which is lower than the median household income in North Carolina (\$48,256).

Figure 14. Median Household Income (American Community Survey, 2012-2016)

Compared to the other counties in the Health ENC region, Bladen County has the lowest median household income. (Figure 15)

**Figure 15. Median Household Income of Health ENC Counties
(American Community Survey, 2012-2016)**

Within Bladen County, zip code 28332 has the lowest median household income (\$26,386), followed by zip code 28433 (\$28,473), while zip code 28448 has the highest median household income (\$43,073) (Figure 16).

Figure 16. Median Household Income by Zip Code (American Community Survey, 2012-2016)

Poverty

Federal poverty thresholds are set every year by the Census Bureau and vary by size of family and ages of family members. A high poverty rate is both a cause and a consequence of poor economic conditions. Children in poverty are more likely to have physical health problems, behavioral problems and emotional problems. Seniors who live in poverty are an especially vulnerable group due to increased physical limitations, medical needs, and social isolation. Persons with a disability are more likely to live in poverty compared to the rest of the population. Without adequate income, individuals with disabilities may not be able to afford necessary expenses, such as rent or mortgage, utility bills, medical and dental care, and food.

As seen in Figure 17, 28.1% percent of the population in Bladen County lives below the poverty level, which is higher than the rate for North Carolina (16.8% of the population) and the Health ENC region (19.2%).

Figure 17. People Living Below Poverty Level (American Community Survey, 2012-2016)

The rate of both children and older adults living below the poverty level is also noticeably higher for Bladen County when compared to North Carolina and Health ENC counties (Figure 18 and Figure 19).

Figure 18. Children Living Below Poverty Level (American Community Survey, 2012-2016)

Figure 19. People 65+ Living Below Poverty Level (American Community Survey, 2012-2016)

As shown in Figure 20, the percent of disabled people living in poverty in Bladen County (45.5%) is also higher than the rate for North Carolina (29.0%) and Health ENC counties (28.1%).

Figure 20. Persons with Disability Living in Poverty (American Community Survey, 2012-2016)

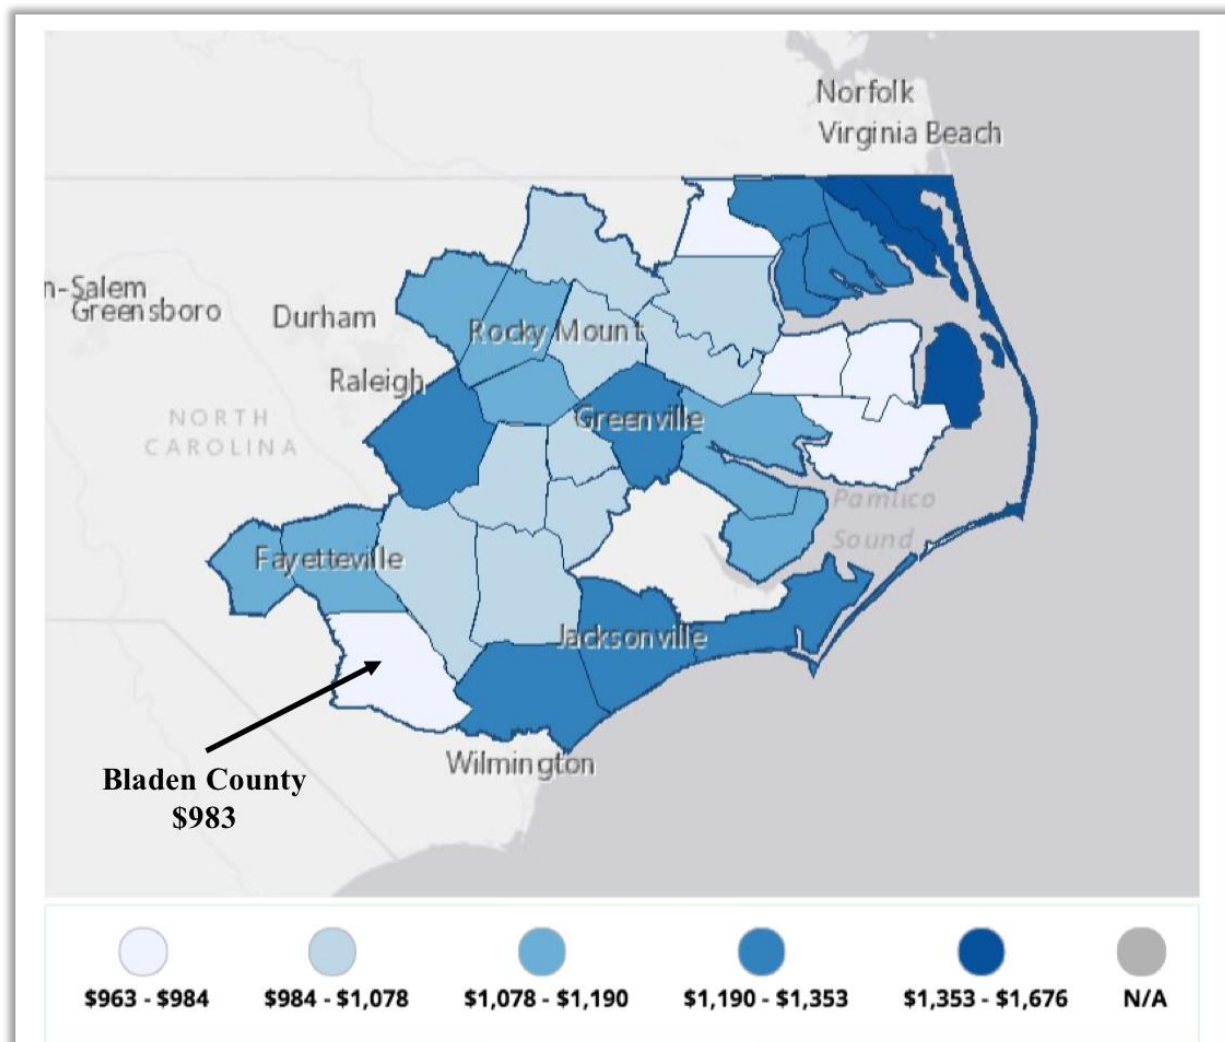

Housing

The average household size in Bladen County is 2.4 people per household, which is similar to the North Carolina value of 2.5 people per household.

High costs of homeownership with a mortgage can strain both homeowners and the local housing market. Figure 21 shows mortgaged owners median monthly household costs in the Health ENC region. In Bladen County, the median housing costs for homeowners with a mortgage is \$983. This is lower than the North Carolina value of \$1,243, and it is within the lowest quintile in the Health ENC region.

**Figure 21. Mortgaged Owners Median Monthly Household Costs, Health ENC Counties
(American Community Survey 2012-2016)**

Safe and affordable housing is an essential component of healthy communities, and the effects of housing problems are widespread. Figure 22 shows the percent of households with at least one of the following problems: overcrowding, high housing costs, lack of kitchen, or lack of plumbing facilities. Approximately 20% of households in Bladen County have severe housing problems, compared to 16.6% in North Carolina and 17.7% in Health ENC counties.

Figure 22. Severe Housing Problems (County Health Rankings, 2010-2014)

Food Insecurity

The Supplemental Nutrition Assistance Program (SNAP) is a federal assistance program that provides low-income families with electronic benefit transfers (EBTs) that can be used to purchase food. The goal of the program is to increase food security and reduce hunger by increasing access to nutritious food.

Figure 23 shows the percent of households with children that participate in SNAP. The rate for Bladen County, 45.2%, is lower than the state value of 52.6% and the Health ENC region value of 51.5%.

Figure 23. Households with Children Receiving SNAP (American Community Survey, 2012-2016)

Employment

Bladen County is a very large and rural county. Many employment opportunities are available through local industries within Bladen. Some of the employees are migrant workers that move in and work on a seasonal basis.

Some of the industries within the county specialize in the production and processing of cotton, blueberries, pork, poultry, peanuts and honey.

Others involve rifle, pallet, yarn, cement ornamental products, forestry and lumber processing and production.

A detailed list of the industries, along with their specialization and number of employees can be found in **Appendix F** of this document. **Source: Bladen County Economic Development 2019**

SocioNeeds Index

Conduent Healthy Communities Institute developed the SocioNeeds Index® to easily compare multiple socioeconomic factors across geographies. This index incorporates estimates for six different social and economic determinants of health – income, poverty, unemployment, occupation, educational attainment, and linguistic barriers – that are associated with poor health outcomes including preventable hospitalizations and premature death.

Zip codes within Bladen County are assigned an index value from 0 (low need) to 100 (high need), based on how those zip codes compare to others in the U.S. Within Bladen County, the zip codes are then ranked from 1 (low need) to 5 (high need) to identify the relative level of need. Zip codes with populations under 300 persons are excluded. Zip code 28392, with an index value of 95.3 has the highest level of socioeconomic need within Bladen County. This is illustrated in Figure 24. Index values and the relative ranking of each zip code within Bladen County are provided in Table 7.

Figure 24. SocioNeeds Index® (Conduent Healthy Communities Institute, 2018)

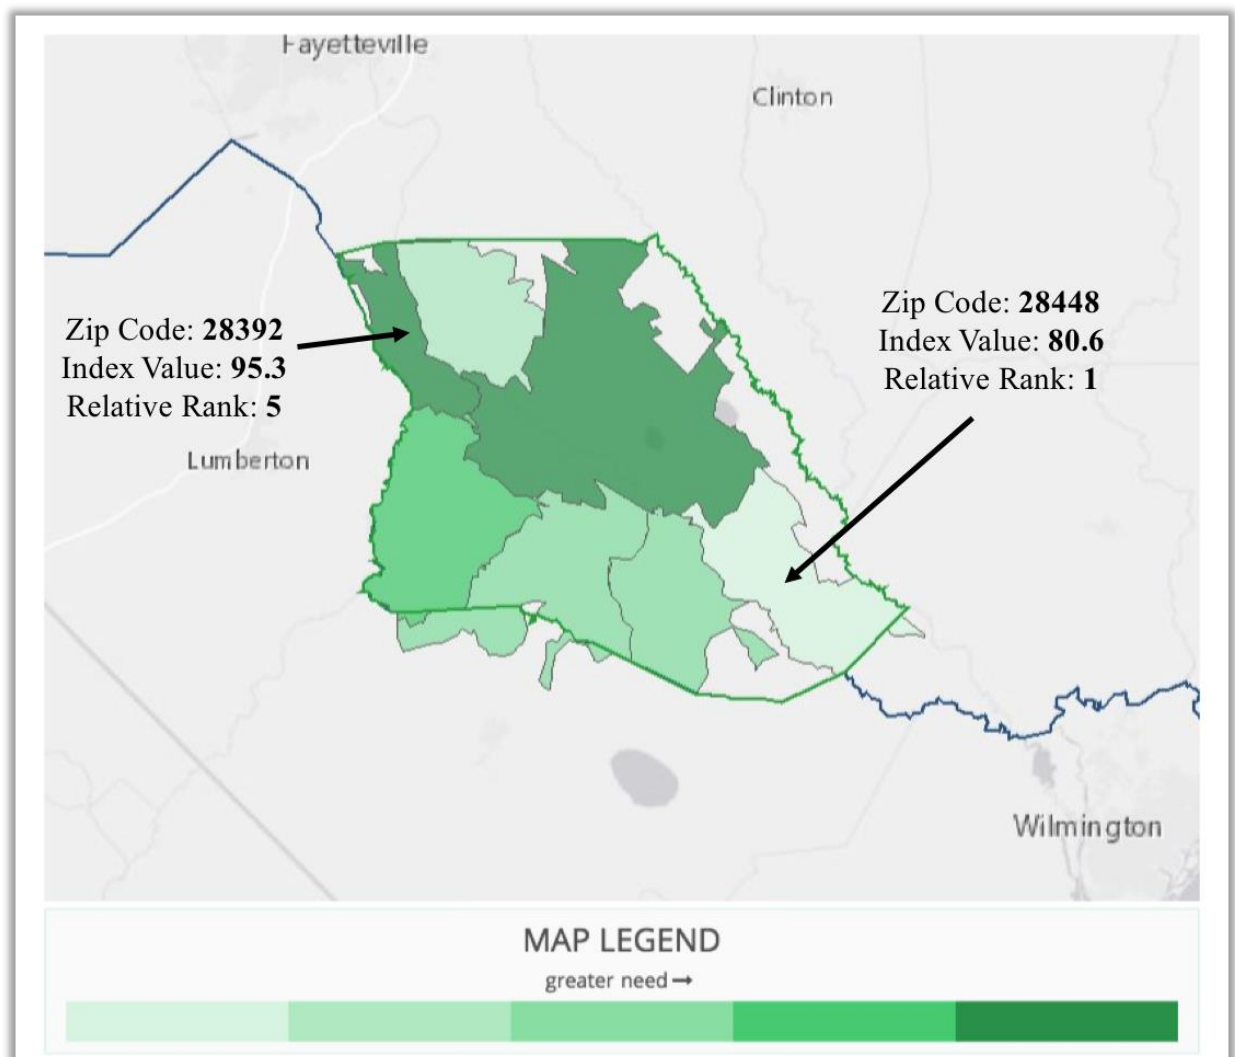

Table 7. SocioNeeds Index® (Conduent Healthy Communities Institute, 2018)

Zip Code	Index Value	Relative Rank
28392	95.3	5
28337	95.1	5
28320	91.1	4
28433	88.5	3
28434	88.0	3
28399	85.7	2
28448	80.6	1

Source: <http://www.healthenc.org/socionneeds>

Understanding where there are communities with high socioeconomic need is critical to forming prevention and outreach activities.

Educational Profile

Educational Attainment

Graduating from high school is an important personal achievement and is essential for an individual's social and economic advancement. Graduation rates can also be an important indicator of the performance of an educational system. Having a bachelor's degree opens up career opportunities in a variety of fields and is often a prerequisite for higher-paying jobs.

Countywide, the percent of residents 25 or older with a high school degree or higher (78.4%) is lower than the state value (86.3%) and the Health ENC region (84.7%) (Figure 25). Higher educational attainment in Bladen County is also lower than the state value and the Health ENC region. Only 14.8% of residents 25 and older have a bachelor's degree or higher in Bladen County, as compared to 19.9% of residents 25 and older have a bachelor's degree or higher in the Health ENC counties (Figure 25).

**Figure 25. People 25+ with a High School Degree or Higher and Bachelor's Degree or Higher
(American Community Survey, 2012-2016)**

Bladen County's rate for those with a high school degree or higher is slightly below that of the state rate and the Health ENC Counties. Only 14.8 % of our population has a bachelor's degree or higher, which is way below the rate of the state at 29.0%.

In some areas of the county, including zip codes 28448, 28337 and 28433, the high school degree attainment rate is below 80% (Figure 26).

**Figure 26. People 25+ with a High School Degree or Higher by Zip Code
(American Community Survey, 2012-2016)**

High School Dropouts

High school dropouts earn less income than high school and college graduates, and are more likely to be unemployed. High school dropouts are generally less healthy and require more medical care. Further, high school dropout rates are linked with heightened criminal activity and incarceration rates, influencing a community's economic, social, and civic health.

Bladen County's high school dropout rate, given as a percent of high school students in Figure 27, is 2.9% in 2016-2017, which is higher than the rate in North Carolina (2.3%) and the Health ENC region (2.4%). With the exception of the rate in 2015-2016, Bladen County's high school dropout rate has been higher than North Carolina's and the Health ENC region's rates since 2013.

Figure 27. High School Dropout Rate (North Carolina Department of Public Instruction)

High School Suspension Rate

High school suspension is a form of discipline in which a student is temporarily removed from a classroom and/or school due to a violation of school conduct or code. Higher rates of suspension can be related to high rates of antisocial or delinquent behaviors, which may further contribute to potential future involvement in the juvenile justice system. Additionally, schools with higher suspension rates have higher rates of law or board of education violations and generally spend more money per student.

Bladen County's rate of high school suspension (15.8 suspensions per 100 students) is lower than North Carolina's rate (18.2) and the rate of Health ENC counties (25.5) in 2016-2017. As shown in Figure 28, the rates for North Carolina and the Health ENC region are fairly consistent across four time periods, but Bladen County's rate experienced an increase in 2014-2015.

Figure 28. High School Suspension Rate (North Carolina Department of Public Instruction)

Bladen County's Educational System

(primary and secondary schools, public, private, charter, community colleges, colleges, universities, trade schools)

From the above data, over time our high school drop-out rates have decreased and are lower than that of the state rate. With many educational opportunities within the county, our students now have options for educational growth.

Bladen County is fortunate to have many educational facilities that provide our citizens with the educational opportunities needed to be successful.

Please see a detailed list of the schools that are available to the county, which include public, private and charter distinctions) within **Appendix G** of this document .

Transportation Profile

Public transportation offers mobility, particularly to people without cars. Transit can help bridge the spatial divide between people and jobs, services, and training opportunities. Public transportation also reduces fuel consumption, minimizes air pollution, and relieves traffic congestion. Walking to work helps protect the environment, while also providing the benefit of daily exercise.

Countywide, 2.4% of residents walk to work, compared to the state value of 1.8%. Public transportation is rare in Bladen County, with 0.4% of residents commuting by public transportation, compared to the state value of 1.1% (Figure 29). In Bladen County, 82.2% of workers 16 and older drive alone to work, compared to 81.1% in North Carolina (Figure 30).

Figure 29. Mode of Commuting to Work (American Community Survey, 2012-2016)

Figure 30. Workers who Drive Alone to Work (American Community Survey, 2012-2016)

Bladen County's Transportation Systems

(Highways, state-maintained roads, airways, and public transportation)

Bladen County has two major highways that intersect in the major city of Elizabethtown, NC- 87 and US-701. Further, there are four additional large traveled routes within the county, NC-242, NC-410, NC-41, and NC-211. In addition to the major highways and state/US routes the county has 332 paved roadways to travel. There is one public airport "Curtis L. Brown, Jr. Field" owned by the major city of Elizabethtown that consists of a lighted 5, 006 feet runway and parallel

taxiway with single point aviation gas and jet fuel for pilots. There is one public transportation system available, B.A.R.T.S (Bladen Area Rural Transportation System) to cover its 887 square miles. The route is scheduled to go through Baltimore, Bladenboro, Clarkton, Smith Pond, Tar Heel, White Lake, White Oak, and Elizabethtown.

Crime and Safety

Violent Crime and Property Crime

Both violent crime and property crime are used as indicators of a community's crime and safety. Violence negatively impacts communities by reducing productivity, decreasing property values and disrupting social services. Violent crime includes four offenses: murder and non-negligent manslaughter, rape, robbery, and aggravated assault. Property crime includes the offenses of burglary, larceny-theft, motor vehicle theft, and arson.

In 2015, the violent crime rate in Bladen County was 411.8 per 100,000 population, compared to 356.3 per 100,000 people in North Carolina (Figure 31). The property crime rate in Bladen County (2315.3 per 100,000 people) is lower than the state value (2,779.7 per 100,000 people) (Figure 32). As shown in Figure 26 and Figure 32, the violent crime rate in Bladen County is increasing, whereas the property crime rate appears to be exhibiting a decrease. Data from 2016 was missing at the time of this analysis.

Figure 31. Violent Crime Rate (North Carolina Department of Justice)

Figure 32. Property Crime Rate (North Carolina Department of Justice)

Juvenile Crime

Youth who commit a crime may not gain the educational credentials necessary to secure employment and succeed later in life. Negative peer influences, history of abuse/neglect, mental health issues, and significant family problems increase the risk of juvenile arrest. The juvenile justice system aims to reduce juvenile delinquency through prevention, intervention, and treatment services.

Figure 33 shows the juvenile undisciplined rate per 1,000 youth ages 6-17 years old. The undisciplined rate describes juveniles who are unlawfully absent from school, regularly disobedient and beyond disciplinary control of the parent/guardian, are regularly found where it is unlawful for juveniles to be, or have run away from home for more than 24 hours. The 2017 juvenile undisciplined rate in Bladen County (0.4) is lower than the rate in North Carolina (1.5) and the Health ENC region (1.1).

Figure 33. Juvenile Undisciplined Rate (North Carolina Department of Public Safety)

Figure 34 shows the juvenile delinquent rate, or juvenile crime rate, per 1,000 youth ages 6-15 years old. While the juvenile crime rate in Bladen County decreased from 2014 to 2016, the rate slightly increased from 6.4 in 2016 to 6.5 in 2017. The 2017 juvenile delinquent rate for Bladen County (6.5) is lower than North Carolina (19.6) and the Health ENC region (22.8).

Figure 34. Juvenile Delinquent Rate (North Carolina Department of Public Safety)

Child Abuse

Child abuse includes physical, sexual and emotional abuse. All types of child abuse and neglect can have long lasting effects throughout life, damaging a child's sense of self, ability to have healthy relationships, and ability to function at home, at work, and at school. Figure 35 shows the child abuse rate per 1,000 population aged 0-18. The 2017 child abuse rate in Bladen County (0.00 per 1,000 population) is lower than the rate in North Carolina (0.22) and the Health ENC region (0.28). The child abuse rate in Bladen County has been 0.00 since 2016.

Figure 35. Child Abuse Rate
(Management Assistance for Child Welfare, Work First, and Food & Nutrition Services in North Carolina & University of North Carolina at Chapel Hill Jordan Institute for Families)

Incarceration

According to the U.S. Bureau of Justice Statistics, approximately one out of 100 adults in the U.S. are in jail or prison. Conditions in jails and prisons can lead to an increased risk of infectious diseases such as tuberculosis and hepatitis C, as well as assault from other inmates. After incarceration, individuals are likely to face a variety of social issues such as employment discrimination, disruption of family relationships and recidivism.

Figure 36 shows the incarceration rate per 1,000 population. The incarceration rate in Bladen County has fluctuated over the past four measurement periods. The 2017 incarceration rate in Bladen County (249.6 per 1,000 population) is lower than North Carolina (276.7), but higher than the Health ENC region (232.6).

Figure 36. Incarceration Rate (North Carolina Department of Public Safety)

Access to Healthcare, Insurance and Health Resources Information

Health Insurance

Medical costs in the United States are very high. People without health insurance may not be able to afford medical treatment or prescription drugs. They are also less likely to get routine checkups and screenings, so if they do become ill they may not seek treatment until the condition is more advanced, and therefore more difficult and costly to treat.

Figure 37 shows the percent of people aged 0-64 years old that have any type of health insurance coverage. The rate for Bladen County, 83.4%, is slightly lower than the rate for North Carolina (87.8%) and the Health ENC region (87.2%). Nearly 17% of the population in Bladen County is uninsured.

Figure 37. Persons with Health Insurance (Small Area Health Insurance Estimates, 2016)

Figure 38 shows the percent of the population only receiving health insurance through Medicaid, Medicare, or military healthcare (TRICARE). Bladen County has a higher percent of people receiving Medicaid (29.5%) than North Carolina (18.2%) and Health ENC counties (21.7%). The percent of people receiving military health insurance is lower (0.4%) in Bladen County, as compared to North Carolina (2.1%) and Health ENC counties (6.6%).

Figure 38. Persons Only Receiving Health Insurance through Medicaid, Medicare or Military Healthcare (American Community Survey, 2012-2016)

Bladen County's Health Insurance Snap-Shot

Bladen has a high rate of adults ages 18-64 that are not covered by health insurance. 20.2% of the adults in Bladen County have no health insurance.

Civic Activity

Political Activity

Exercising the right to vote allows a community to choose elected officials and hold them accountable. Voting ensures that all citizens have the opportunity to voice their opinions on issues such as the use of tax dollars, civil rights and foreign policy. By voting, individuals shape their communities and influence the next generation of society. A high level of voter turnout indicates that citizens are involved and interested in who represents them in the political system.

Figure 39 shows the voting age population, or percent of the population aged 18 years and older. Bladen County has a higher percent of residents of voting age (78.7%) than North Carolina (77.3%) and Health ENC counties (76.7%).

Figure 39. Voting Age Population (American Community Survey, 2012-2016)

Figure 40 shows the percent of registered voters who voted in the last presidential election. The rate in Bladen County was 67.7%, which is equal to the state value and slightly higher than Health ENC counties (64.3%).

**Figure 40. Voter Turnout in the Last Presidential Election
(North Carolina State Board of Elections, 2016)**

Findings

Secondary Data Scoring Results

Table 8 shows the data scoring results for Bladen County by topic area. Topics with higher scores indicate greater need. Heart Disease & Stroke is the poorest performing health topic for Bladen County, followed by Diabetes, Prevention & Safety, Older Adults & Aging, Maternal, Fetal & Infant Health, and Access to Health Services.

Table 8. Secondary Data Scoring Results by Topic Area

Health Topic	Score
Heart Disease & Stroke	2.19
Diabetes	2.17
Prevention & Safety	2.15
Older Adults & Aging	2.11
Maternal, Fetal & Infant Health	2.09
Access to Health Services	2.07

*See Appendix B for additional details on the indicators within each topic area

Primary Data

Community Survey

Figure 41 shows the list of community issues that were ranked by residents as most affecting the quality of life in Bladen County. Low-income/poverty was the most frequently selected issue and was ranked by 44.7% of survey respondents, followed by drugs/substance abuse. Survey respondents ranked pollution as the third issue most affecting quality of life in Bladen County (6.2%) followed closely behind by discrimination/racism (5.9%). Less than 1% of survey respondents selected homelessness, violent crime, hopelessness, child abuse, rape/sexual assault, neglect and abuse, elder abuse and domestic violence as issues most affecting the quality of life in Bladen County.

Figure 41. Top Quality of Life Issues, as Ranked by Survey Respondents

Figure 42 displays the level of agreement among Bladen County residents in response to nine statements about their community. More than half of survey respondents agreed or strongly agreed that the county has good parks and recreation facilities, is a safe place to live, is a good place to grow old and is a good place to raise children. 41% of survey respondents strongly disagree or disagree that it is easy to buy healthy foods in the county and that there is plenty of help for people during times of need. Further, 64% of survey respondents either disagreed or strongly disagreed that there is plenty of economic opportunity in the county.

Figure 42. Level of Agreement Among Bladen County Residents in Response to Nine Statements about their Community

Figure 43 shows the list of services that were ranked by residents as needing the most improvement in Bladen County. Higher paying employment was the most frequently selected issue, followed by counseling /mental health /support groups, availability of employment and positive teen activities.

Figure 43. Services Needing the Most Improvement, as Ranked by Survey Respondents

Figure 44 shows a list of health behaviors that were ranked by residents as topics that Bladen County residents need more information about. Substance abuse prevention was the most frequently selected issue, being ranked by 30.4% of survey respondents. This was followed by other, eating well/nutrition, managing weight, going to the doctor for yearly checkups and screenings, and caring for family members with special needs/disabilities.

Figure 44. Health Behaviors that Residents Need More Information About, As Ranked by Survey Respondents

Focus Group Discussions

Table 9 shows the focus group results for Bladen County by topic area or code. Focus Group transcript text were analyzed by the Conduent HCI team using a list of codes that closely mirror the health and quality of life topics used in the data scoring and community survey processes. Text was grouped by coded excerpts, or quotes, and quantified to identify areas of the highest need per the focus group participants. All excerpts/quotes were also categorized as a strength or a barrier/need based on the context in which the participant mentioned the topic. Topics with higher frequency and mentioned in the context of needs/concerns or barriers/challenges suggests greater need in the community. Topics with a frequency more than 20 are included in the overall list of significant health needs.

Table 9. Focus Group Results by Topic Area

Topic Area (Code)	Frequency
Exercise, Nutrition & Weight	34
Economy	18
Built Environment	8
Substance Abuse	6
Children's Health	5
Heart Disease & Stroke	5

Data Synthesis

All forms of data have strengths and limitations. In order to gain a comprehensive understanding of the significant health needs for Bladen County, findings from the secondary data, community survey and focus group discussions were compared and analyzed for areas of overlap. The top needs from each data source were identified using the criteria displayed in Table 10.

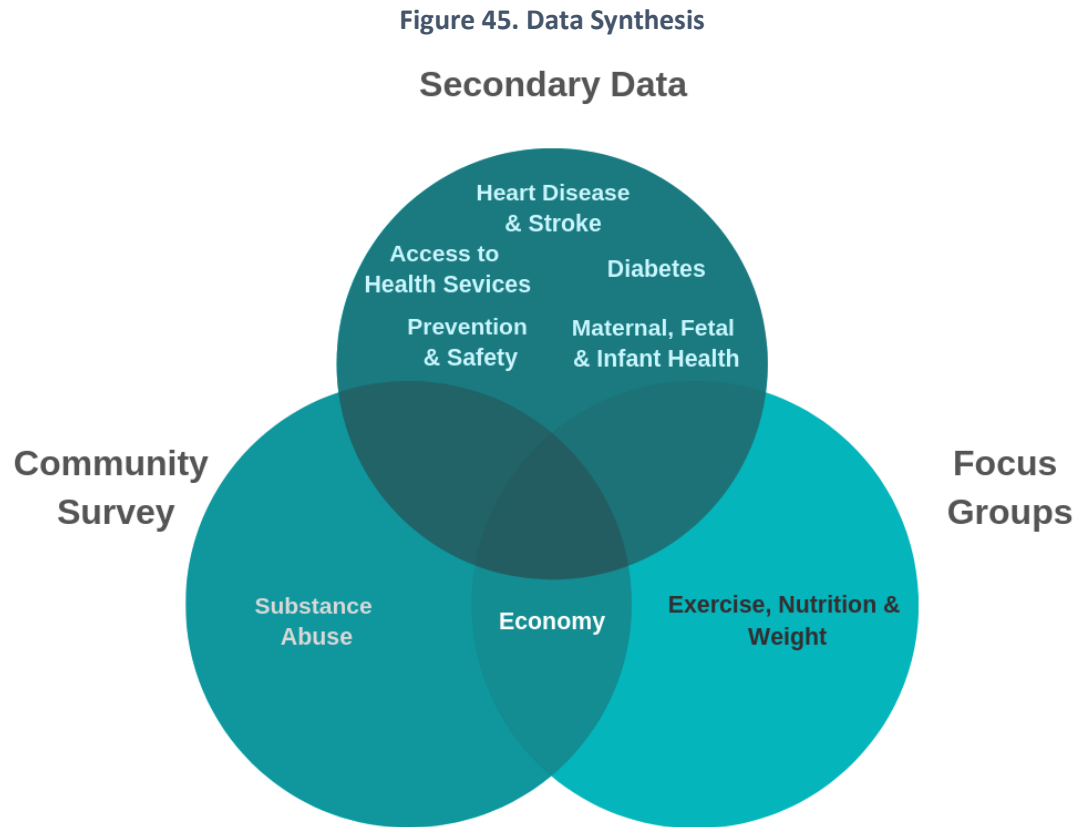

Table 10. Criteria for Identifying the Top Needs from each Data Source

Data Source	Criteria for Top Need
Secondary Data	Topics receiving highest data score
Community Survey	Community issues ranked by survey respondents as most affecting the quality of life*
Focus Group Discussions	Topics discussed most frequently by participants in context of needs/concerns or barriers/challenges to achieving health

*Community Survey Q4: Please look at this list of community issues. In your opinion, which one issue most affects the quality of life in this County?

The top needs from each data source were incorporated into a Venn Diagram. Community issues ranked by survey respondents were categorized to align with the health and quality of life topic areas displayed in Table 2.

Figure 45 Data Synthesis, displays the top needs from each data source in the Venn diagram.

Across the three data sources, there is overlap and strong evidence of need attention the quality of life topic Economy. As seen in Figure 45, the survey results and focus group discussion analysis cultivated additional topics not ranked as top priorities in the secondary data scoring findings. A mixed-methods approach is a strength when assessing a community as a whole. This process ensures robust findings through statistical analysis of health indicators and examination of constituent’s perceptions of community health issues.

Topic Areas Examined in This Report

Eight topic areas were identified as high scoring across the three data sources. These topics are listed below.

Table 11. Topic Areas Examined In-Depth in this Report

Access to Health Services*
Diabetes*
Economy
Exercise, Nutrition & Weight
Heart Disease & Stroke*
Maternal, Fetal & Infant Health*

Prevention & Safety*

Substance Abuse

The five topic areas with the highest secondary data scores (starred*) are explored in-depth in the next section and include corresponding data from community participants when available. Following the five topic areas is a section called 'Other Significant Health Needs' which includes discussion of the additional topics that were identified specifically in the community survey and focus group discussions. The additional topics in 'Other Significant Health Needs' includes Access to Health Services, Exercise, Nutrition & Weight, Economy and Substance Abuse.

Navigation Within Each Topic

Findings are organized by topic area. Within each topic, key issues are summarized followed by a review of secondary and primary data findings. Special emphasis is placed on populations that are highly impacted, such as older adults, race/ethnic groups or low-income populations. Figures, tables and extracts from quantitative and qualitative data substantiate findings. Each topic includes a table with key indicators from the secondary data scoring results. The value for Bladen County is displayed alongside relevant comparisons, gauges and icons which are color-coded with green indicating good, red indicating bad and blue indicating neutral. Table 12 describes the gauges and icons used to evaluate the secondary data.

Table 12. Description of Gauges and Icons used in Secondary Data Scoring

Gauge or Icon	Description
	Green represents the "best" 50th percentile.
	Yellow represents the 50th to 25th quartile
	Red represents the "worst" quartile.
	There has been a non-significant increase/decrease over time.
	There has been a significant increase/decrease over time.
	There has been neither a statistically significant increase nor decrease over time.

Heart Disease & Stroke

Key Issues

- Stroke, heart disease and ischemic heart disease are top health issues amongst the Medicare population
- Atrial fibrillation within the Medicare population is significantly increasing over time
- The age-adjusted death rate due to heart disease is higher in the Bladen County than in North Carolina and does not meet the goal for Healthy North Carolina 2020

Secondary Data

The secondary data scoring results reveal Prevention and Safety as the top need in Bladen County with a score of 2.19. Additional analysis is performed to find specific indicators that contribute to this area of concern, and these indicators are identified with high indicator data scores, shown in Table 13.

Table 13. Data Scoring Results for Heart Disease & Stroke

Score	Indicator (Year) (Units)	Bladen County	North Carolina	U.S.	North Carolina Counties	U.S. Counties	Trend	Healthy NC 2020	HP 2020
2.5	Stroke: Medicare Population (2015) (percent)	5.1	3.9	4				-	-
2.3	Hypertension: Medicare Population (2015) (percent)	68.4	58	55				-	-
2.1	Age-Adjusted Death Rate due to Heart Disease (2012-2016) (deaths/ 100,000 population)	243.4	161.3	-				161.5	-
2.3	Hyperlipidemia: Medicare Population (2015) (percent)	55.6	46.3	44.6				-	-
2.1	Atrial Fibrillation: Medicare Population (2015) (percent)	8.1	7.7	8.1				-	-

2.5	Ischemic Heart Disease: Medicare Population (2015) (percent)	33	24	26.5				-	-
	Heart Failure: Medicare Population (2015) (percent)	18.7	12.5	13.5				-	-

**See Appendix B for full list of indicators included in each topic area*

Primary Data

42% of survey participant reported being told by a health care professional that they had high blood pressure and 30% had been told they have high cholesterol. When asked about challenges to accessing health services for themselves or a family member, 18% community survey respondents indicated that they had an issue in the past 12 months accessing health care services or provider. For those respondents who had experienced challenges accessing health care services or providers in the past 12 months, 23% indicated that they had trouble accessing a specialist. Indirectly related, community survey respondents rated eating well/nutrition, going to the doctor for yearly checkups and screenings and managing weight as topics the community needs more information about which may impact the population living with conditions related to heart disease and stroke.

Heart Disease and Stroke came up in all focus groups and was mentioned specifically by five participants as a primary concern. Heart disease, heart attacks, high blood pressure, hypertension were the conditions participants felt were health issues experienced by community members.

Highly Impacted Populations

Data scoring analysis identified the Medicare population as highly impacted within the Heart Disease & Stroke topic area. No specific groups were identified in the primary data sources.

Diabetes

Key Issues

- Diabetes amongst the Medicare population is a top area of concern for Bladen County
- Diabetes amongst adults over 20 years old is higher in Bladen County than in the state and U.S.
- The age-adjusted death care due to diabetes shows signs of increasing over time

Secondary Data

Diabetes is a top area of need based on the secondary data analysis and received a score of 2.17. Table 14 highlights indicators of concern.

Table 14. Data Scoring Results for Diabetes

Score	Indicator (Year) (Units)	Bladen County	North Carolina	U.S.	North Carolina Counties	U.S. Counties	Trend
2.3	Adults 20+ with Diabetes (2014) (percent)	14.7	11.1	10			
2.28	Age-Adjusted Death Rate due to Diabetes (2012-2016) (deaths/ 100,000 population)	36.5	23	21.1			
2.5	Diabetes: Medicare Population (2015) (percent)	37.5	28.4	26.5			

**See Appendix B for full list of indicators included in each topic area*

Primary Data

Community survey respondents rated eating well/nutrition, going to the doctor for yearly checkups and screenings and managing weight as topics the community needs more information about which may also impact the adult population living with Diabetes. 15% of community survey participants reported being told by a medical professional that they have diabetes and 50% had been told that they were overweight or obese. Diabetes was not discussed at length in the focus group sessions though it was raised by three participants as a top issue they see as impacting the community.

Highly Impacted Populations

Data scoring analysis identified the Medicare population as a group highly impacted within the Diabetes topic area. No specific groups were identified in the primary data sources.

Prevention & Safety

Key Issues

- Severe housing problems reported within Bladen County are significantly increasing over time
- The age-adjusted death rate due to firearms is higher in Bladen County than in North Carolina and the U.S. overall
- The death rate due to unintentional poisoning does not meet the Healthy North Carolina 2020 goal of 9.9 deaths per 100,000 population

Secondary Data

The Prevention & Safety topic received a data score of 2.15. Indicators in this category relate to harm, housing and unintentional deaths in the community. The highest scoring indicators related to the Prevention & Safety topic area are displayed in Table 15.

Table 15. Data Scoring Results for Prevention & Safety

Score	Indicator (Year) (Units)	Bladen County	North Carolina	U.S.	North Carolina Counties	U.S. Counties	Trend	Healthy NC 2020	HP 2020
2.55	Severe Housing Problems (2010-2014) (percent)	19.9	16.6	18.8				-	-
2.55	Age-Adjusted Death Rate due to Firearms (2014-2016) (deaths/ 100,000 population)	27.5	12.7	11				-	9.3
2.4	Age-Adjusted Death Rate due to Unintentional Poisonings (2013-2015) (deaths/ 100,000 population)	20.9	12.9	13.4				9.9	-
2.1	Death Rate due to Drug Poisoning (2014-2016) (deaths/ 100,000 population)	20.4	16.2	16.9				-	-

**See Appendix B for full list of indicators included in each topic area*

Primary Data

According to survey results, Prevention & Safety did not rank high as one of the top quality of life topics individuals in Bladen County felt effected their lives. Less than 3% selected safety related topics overall

as top issues in the community. 2.5% of participants selected more affordable or better housing as a service needing the most improvement. 40% of participants shared that they strongly agreed or agreed that Bladen County has affordable housing that meets their needs while, 53% strongly agreed or agreed that Bladen County is a safe place to live. Since survey results are not necessarily representative of the community as a whole, the respondents may not be experiencing housing and safety issues to the extent certain segments of the population may be. Focus group discussion did not reveal any needs or concerns related to safety more generally though this may have been related to the nature of the conversations.

Highly Impacted Populations

Data scoring analysis did not identify, or there was not data available, to indicate any groups highly impacted within the Prevention & Safety topic area. No specific groups were identified in the primary data sources.

Maternal, Fetal & Infant Health

Key Issues

- The percentage of babies born with low birth weight and very low birth weight are higher in Bladen County than in North Carolina and the U.S.
- 12.9% of babies are born preterm in Bladen County which does not meet the Healthy People 2020 goal of 9.4%

Secondary Data

Maternal, Fetal & Infant Health received a topic score of 2.09. Indicators with high scores and of concern are displayed in Table 16.

Table 16. Data Scoring Results for Maternal, Fetal & Infant Health

Score	Indicator (Year) (Units)	Bladen County	North Carolina	U.S.	North Carolina Counties	U.S. Counties	Trend	Healthy NC 2020	HP 2020
2.23	Babies with Very Low Birth Weight (2012-2016) (percent)	2.2	1.7	1.4				-	1.4
2.43	Babies with Low Birth Weight (2012-2016) (percent)	10.2	9	8.1				-	7.8
2.33	Preterm Births (2016) (percent)	12.9	10.4	9.8				-	9.4

**See Appendix B for full list of indicators included in each topic area*

Primary Data

In the community survey, participants were asked to identify health behaviors people in the community need more information about and “getting prenatal care during pregnancy” was selected by less than 1% of the survey respondents. This result may have been due to the demographics of survey respondents and not necessarily reflect the ultimate need in the community. During the focus group discussions, teen pregnancy and pre/post-natal care was not raised by two participants as issues in the community. One participant the Young Families Connect program as an asset in the community that supported mothers about making healthy choices and preparing healthier foods at home. The lack of discussion in relation to Maternal, fetal and Infant Health may also indicate a lack of awareness in the community about these issues.

Related to teen health and pregnancy, “positive teen activities” was the 4th highest ranking service needing improvement in the community (10.2%) and preventing pregnancy/sexually transmitted diseases was selected by 1.8% of survey respondents as a health behavior that people in the community need more information about.

Highly Impacted Populations

Data scoring analysis did not identify, or there was not data available, to indicate any groups highly impacted within the Maternal, Fetal & Infant Health topic area. No specific groups were identified in the primary data sources.

Access to Health Services

Key Issues

- The primary care and mental health provider rates are lower in Bladen County than in North Carolina and the U.S. and may be decreasing over time
- Preventable hospital stays are a concern for the Medicare population in Bladen County with a value of 80.5 discharges per 1,000 Medicare enrollees
- The percentage of the population with health insurance does not meet the Healthy North Carolina 2020 goal of 92%

Secondary Data

From the secondary data scoring results, Access to Health Services was identified to be a top need in Bladen County, with a score of 2.07. Specific indicators of concern are highlighted in Table 17.

Table 17. Data Scoring Results for Access to Health Services

Score	Indicator (Year) (Units)	Bladen County	North Carolina	U.S.	North Carolina Counties	U.S. Counties	Trend	Healthy NC 2020	HP 2020
2.5	Primary Care Provider Rate (2015) (providers/ 100,000 population)	20.4	70.6	75.5				-	-
2.3	Preventable Hospital Stays: Medicare Population (2014) (discharges/ 1,000 Medicare enrollees)	80.5	49	49.9				-	-
2.15	Mental Health Provider Rate (2017) (providers/ 100,000 population)	59.3	215.5	214.3				-	-
2.13	Persons with Health Insurance (2016) (percent)	83.4	87.8	-				92	100

*See Appendix B for full list of indicators included in each topic area

Primary Data

As previously summarized, the majority of community survey respondents have health insurance through an employer (64.2%) followed by Medicare (10.9%). Participants were asked where they most often go to seek medical treatment, the majority sought care at a doctor's office (69%). Most participants did not report any problems getting the health care they needed in the past 12 months (80%). For those who reported have difficulties accessing health care services, the most common reported provider that they had trouble getting services from was a general practitioner (42%) followed by a dentist (24%) or a specialist (23%). The top reasons participants reported not being able to get the necessary health care they needed were not being able to get an appointment (38%), they did not have health insurance (32%) and insurance didn't cover what they needed (29%). 61% of participants reported being able to see the medical provider they needed within Bladen County other sought care in places including Cumberland County (13%).

"The elderly population suffers from barriers such as finances and transportation to get to doctors' appointments. Some of them have to choose between paying for medications or having food."

Focus Group participants discussed barriers to access health services specifically due to the geographic limitations that come with living in rural community. One participant felt that the Hispanic/Latino population do not seek medical care out of fear and lack of trust. A few participants felt that the elderly population is not getting the medical treatment that they need because of financial and transportation barriers. Other participants brought up child health care as limited only to mandatory vaccinations and drops off after those occur.

"Children ages 5-12 years old get neglected with health after they have finished their vaccinations needed, there's a drop off for check-ups and health care."

Highly Impacted Populations

Focus Group Participants brought up the Hispanic/Latino population, the elderly and children as groups they perceived are not able to access health services.

Mortality

Knowledge about the leading causes of death in a population is critical to understanding how to target interventions to maximize population health. Table 18 shows the leading causes of mortality in Bladen County, North Carolina, and Health ENC Counties in 2014-2016, where the rate is age-adjusted to the 2000 U.S. standard population and is given as an age-adjusted death rate per 100,000 population.

Table 18. Leading Causes of Mortality (2014-2016, CDC WONDER)

Bladen County				North Carolina			Health ENC Counties		
Rank	Cause	Deaths	Rate*	Cause	Deaths	Rate*	Cause	Deaths	Rate*

**Age-adjusted death rate per 100,000 population*

Other Significant Health Needs

Economy

Secondary Data

From the secondary data scoring results, Economy was the 9th most pressing health need in Bladen County with a score of 1.94. Top related indicators include: People 65+ Living Below Poverty Level (2.70), People Living Below Poverty Level (2.65), Severe Housing Problems (2.55), Children Living Below Poverty Level (2.50), Female Population 16+ in Civilian Labor Force (2.50), Population 16+ in Civilian Labor Force (2.50) and Students Eligible for the Free Lunch Program.

Primary Data

Community survey participants were asked to rank the issues most negatively impacting their community's quality of life. According to the data, both poverty and the economy were the top issues in Bladen County that negatively impact quality of life. Community survey participants were also asked to weigh-in on areas of community services that needed the most improvement. Higher paying employment received the highest share of responses (23.9%), while availability employment was 3rd (11.9%). When asked to expand on services that could be improved the need for more economic activity in the community and jobs offering higher salaries.

"There are a lot of families in poverty in our county."

Focus group participants also touched on key economic stressors: challenges with being able to afford healthy behaviors or activities and delays in seeking health care due to costs. One participant raised concerns about the number of families in the county living poverty another participant felt that salaries needed to be increased in the community.

Exercise, Nutrition & Weight

Secondary Data

From the secondary data scoring results, Exercise, Nutrition & Weight was the 14th most pressing health need in Bladen County with a score of 1.78. Top related indicators include: Adults 20+ who are Obese (2.65), Access to Exercise Opportunities (2.40), Child Food Insecurity Rate (2.30), Food Insecurity Rate (2.30) and Adults 20+ who are Sedentary (2.25).

Primary Data

Among community survey respondents, 43% rated their health is good and 30% rated their health as very good. However, 50% of respondents reported being told by a health professional that they were overweight and/or obese. Data from the community survey participants show that 42.2% of community members do not engage in any physical activity or exercise during the week that lasts at least 30 minutes. Among individuals that do not exercise, respondents reported reasons including not having enough time (33%) and being too tired (33%). For those individuals that do exercise, 74% reported exercising or engaging in physical activity at home while 19% do so at a public park or work site/employer (19%).

Exercise, nutrition & Weight was discussed in all focus groups. Participants shared that they struggled with not being able to afford to eat healthy or knowing what to select as healthy food choices when eating away from home. Specific issues included difficulty finding healthy food option due to limited choices healthy restaurants, limited access to purchase healthy foods and family traditions around cooking. Several participants raised that more activities that engage children in physical activity were needed in the community either through recreation sports or center such as a YMCA. Overall people felt that nutritional education is needed in the community and too many people rely on fast food restaurants for their meals. To emphasize this point, when community members were asked about specific topic areas they were interested in learning more about in the community survey, managing weight, nutrition, and exercising/fitness were high frequency responses. Participants also suggested taking advantage of community assets such as walking trails and initiating no-cost fitness groups.

“It would be great if we could have a more organized recreation center or YMCA that children could use. They need more to do.”

“Farmer’s Markets could have more and be used more. Our farmer’s market really only has some vegetables and a croissant place in it. Farmer’s rather sell from their homes or on the roadside.”

Substance Abuse

Secondary Data

From the secondary data scoring results, Substance Abuse was the 22nd most pressing health need in Bladen County and received a score of 1.48. Top related indicators include: Adults who Smoke (2.70) and Death Rate due to Drug Poisoning (2.10).

Primary Data

Community survey participants ranked substance abuse (25.7%) as a top issue affecting quality of life in Gates County. Additionally, 30.4% of community survey respondents reported wanting to learn more about substance abuse prevention.

16% of survey participants reported currently use tobacco products. Of those who reported tobacco product use, 34% would go to a doctor if they wanted to quit and 26% stated that they did not want to quit. 48% of survey participants reported having been exposed to secondhand smoke in the last year. Of those who indicated that they had been exposed to secondhand smoke, 32% were exposed in the home and 33% selected ‘other’, mostly adding that they had been exposed in other people’s homes and outside. Most participants (79%) reported that in the past 30 days, there were zero times where they drank more than 4/5 drinks on a single occasion and 8% had one time. Reported illicit drug use amongst survey participants in the past 30-days was low, 98% reported no illegal drug use and 99% reported no use of prescription drugs they did not have a prescription for. Of those who reported any illegal drug use

(<2%) in the past 30 days, 80% reported marijuana use. Focus group discussion did not focus heavily on substance abuse, however, five participants specifically raised prescription drugs, tobacco products and secondhand smoke as issues they see as problems that needs to be addressed in the community.

A Closer Look at Highly Impacted Populations

Several subpopulations emerged from the primary and secondary data for their disparities in access to care, risk factors, and health outcomes. This section focuses on these subpopulations and their unique needs.

Older Adults & Aging

Older Adults & Aging ranks as a top need in Bladen County as determined by the secondary data scoring results; a number of indicators (21) are contributing to its topic score of 2.11. Death rates due to prostate cancer are of particular concern. Chronic Kidney Disease amongst the Medicare population in Bladen received a comparison score of 2.70 when compared to other counties, which is higher than the state value and national value. In addition, 20.4% of adults over 65 years old are living below the poverty level in Bladen County and Black or African American community members are disparately impacted. The following indicators are of concern and received a high score of 2.50 and specifically impact the Medicare population in the county, including: Asthma: Medicare Population, COPD: Medicare Population, Diabetes: Medicare Population, Heart Failure: Medicare Population, Ischemic Heart Disease: Medicare Population, Rheumatoid Arthritis or Osteoarthritis: Medicare Population and Stroke: Medicare Population.

Disparities by Age, Gender and Race/Ethnicity

Secondary data are further assessed to determine health disparities for race/ethnic, age, or gender groups. Table 19 identifies indicators in which a specific population subgroup differs significantly and negatively from the overall population in Bladen County, with significance determined by non-overlapping confidence intervals.

Table 19. Indicators with Significant Race/Ethnic, Age, or Gender Disparities

Health Indicator	Group(s) Disparately Affected*
People 65+ Living Below Poverty Level	Black or African American
People Living Below Poverty Level	12-17, 6-11, <6, Black or African American, Hispanic or Latino, Other
Children Living Below Poverty Level	Black or African American, Hispanic or Latino, Other
Families Living Below Poverty Level	Black or African American, Hispanic or Latino
Per Capita Income	Black or African American, Hispanic or Latino, Other, Two or More Races
Median Household Income	Black or African American
Young Children Living Below Poverty Level	Black or African American

People 25+ with a High School Degree or Higher	65+, Hispanic or Latino
Workers who Drive Alone to Work	60-64, Female, Asian
Lung and Bronchus Cancer Incidence Rate	Male
Workers who Walk to Work	45-54, Black or African American

**See [HealthENC.org](https://www.healthenc.org) for indicator values for population subgroups*

The list of indicators with significant disparities should be interpreted with caution. Indicators beyond those displayed in Table 19 may also negatively impact a specific subgroup; however, not all data sources provide subpopulation data, so it is not possible to draw conclusions about every indicator used in the secondary data analysis.

Geographic Disparities

Geographic disparities are identified using the SocioNeeds Index®. Zip code 28392, with an index value of 95.3, has the highest socioeconomic need within Bladen County, potentially indicating poorer health outcomes for its residents. See the [SocioNeeds Index®](#) for more details, including a map of Bladen County zip codes and index values.

Conclusion

The Community Health Needs Assessment utilized a comprehensive set of secondary data indicators measuring the health and quality of life needs for Bladen County. The assessment was further informed with input from Bladen County residents through a community survey and focus group discussions that included participants from broad interests of the community. The data synthesis process identified 8 significant health needs: Access to Health Services, Diabetes, Economy, Exercise, Nutrition & Weight, Heart Disease & Stroke, Maternal, Fetal & Infant Health, Prevention & Safety and Substance Abuse.

The prioritization process identified 3 focus areas: **(1)** Exercise, Nutrition and Weight **(2)** Substance Abuse **(3)** New and Emerging Issue identified as Maternal, Fetal & Infant Health.

Following this process, Bladen County will outline how it plans to address these health needs in its implementation plan.

We hope to incorporate any feedback on this report into the next CHNA process.

Appendix A. Impact Since Prior CHNA

Cape Fear Valley Health system details their priorities, significant health needs, planned activities to address these issues and the results in the table below.

Significant Health Need Identified in Preceding CHNA	Planned Activities to Address Health Needs Identified in Preceding Implementation Strategy	Was Activity Implemented (Yes/No)	Results, Impact & Data Sources
Heart Disease	Clinics will distribute educational information to patients about risk	Yes	Over 130,000 clinic visits over the three year period in Bladen County clinics. Providers are able to provide educational material specific to heart disease. Providers discuss risks with patients and go over the educational material. Patients are educated about resources that are available in the Cape Fear Valley Health System.
	Blood Pressure Screenings at Events	Yes	Participated in over 36 events in Bladen County during the three year window. Performed blood pressure screenings. Provided educational information to individuals with high blood pressure. Highlighted available resources both in the community as well as from Cape Fear Valley Health System. Provided Hands Only CPR education at the Bladenboro Beast Fest each year.
Cancer	Education and Screening of Top 4 cancers at Outreach Events	Yes	Participated in over 36 events in Bladen County during the three year window. Highlighted available resources both in the community as well as from Cape Fear Valley Health System. Cancer Center staff participate and educate attendees about the four main sites of cancer(Breast, Lung, Prostate, & Colorectal). For the top 4 cancers, Bladen County mortality rates associated with cancer are decreasing at/or superior to the statewide rate(2013-2017 Key Health Indicator Trends).

	Work with CFVHS Foundation to raise funds for Low Dose Lung CTs	No	Foundation did not have funds available to offer free Low Dose Lung CTs. However, Bladen Hospital performed 84 Low Dose Lung CTs in FY 2017 & FY 2018 combined. Patients were referred to CFVHS Cancer Center when they need further evaluation.
Diabetes/Obesity	Clinics will distribute educational information to patients about risk	Yes	Over 130,000 clinic visits over the three year period in Bladen County clinics. Providers are able to provide disease specific material to patients. Providers discuss risks with patients and go over the educational material. Patients are educated about resources that are available in the Cape Fear Valley Health System.
	Education and Screening of Diabetes at Outreach events	Yes	Participated in over 36 events in Bladen County during the three year window. Highlighted available resources both in the community as well as from Cape Fear Valley Health System. Residents from CFVHS residency program perform blood pressure & blood sugar tests at outreach events. Residents will educate attendees about the risk of diabetes.

Appendix B. Secondary Data Scoring

Overview

Data scoring consists of three stages, which are summarized in Figure 46:

Comparison Score

For each indicator, Bladen County is assigned up to 7 comparison scores based on its comparison to other communities, whether health targets have been met, and the trend of the indicator value over time. Comparison scores range from 0-3, where 0 indicates the best outcome and 3 indicates the worst outcome (Figure 47).

Indicator Score

Indicator scores are calculated as a weighted average of comparison scores. Indicator scores range from 0-3, where 0 indicates the best outcome and 3 indicates the worst outcome (Figure 47).

Topic Score

Indicators are then categorized into topic areas. Topic scores are calculated by averaging all relevant indicator scores, with indicators equally weighted. Topic scores range from 0-3, where 0 indicates the best outcome and 3 indicates the worst outcome (Figure 47). Indicators may be categorized into more than one topic area.

Figure 46. Secondary Data Scoring

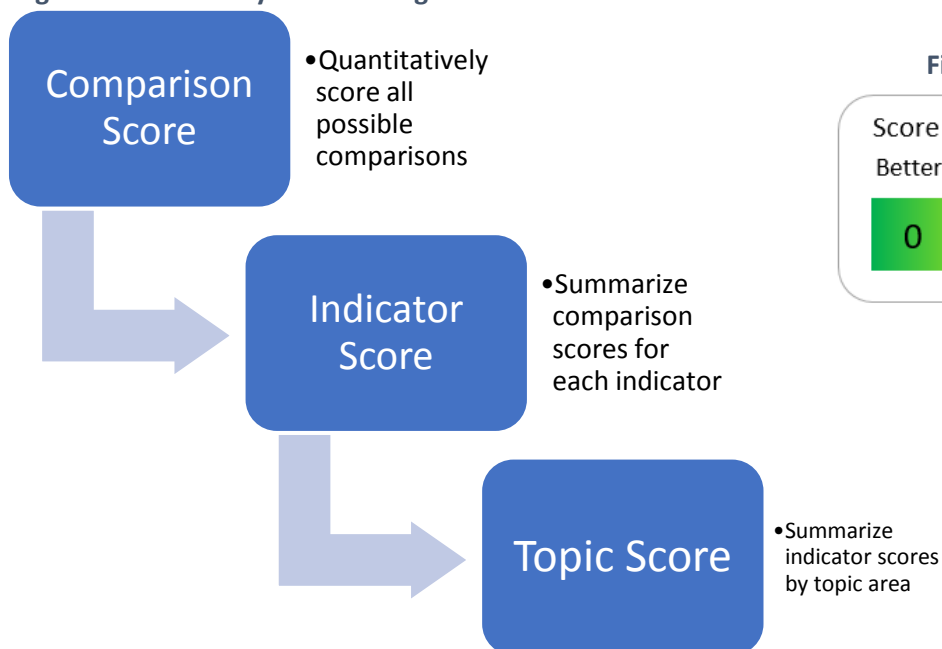

Figure 47. Score Range

Comparison Scores

Up to 7 comparison scores were used to assess the status of Bladen County. The possible comparisons are shown in Figure 48 and include a comparison of Bladen County to North Carolina counties, all U.S. counties, the North Carolina state value, the U.S. value, Healthy People 2020 targets, Healthy North Carolina 2020 targets, and the trend over time. Availability of each type of comparison varies by indicator and is dependent upon the data source, comparability with data collected for other communities, and changes in methodology over time. The determination of comparison scores for each type of comparison is discussed in more detail below.

Figure 48. Comparisons used in Secondary

Figure 49. Compare to Distribution Indicator

Comparison to a Distribution of North Carolina Counties and U.S. Counties

For ease of interpretation and analysis, indicator data on [HealthENC.org](https://www.healthenc.org) is visually represented as a green-yellow-red gauge showing how Bladen County is faring against a distribution of counties in North Carolina or the U.S. (Figure 49).

A distribution is created by taking all county values within the state or nation, ordering them from low to high, and dividing them into four equally sized groups based on their order (Figure 50). The comparison score is determined by how Bladen County falls within these four groups or quartiles.

Figure 50. Distribution of County Values

Comparison to North Carolina Value and U.S. Value

As shown in Figure 51, the diamond represents how Bladen County compares to the North Carolina state value and the national value. When comparing to a single value, the comparison score is determined by how much better or worse the county value is relative to the comparison value.

Figure 51. Comparison to Single Value

Comparison to Healthy People 2020 and Healthy North Carolina 2020 Targets

As shown in Figure 52, the circle represents how Bladen County compares to a target value. Two target values are taken into consideration for this analysis: Healthy People 2020 and Healthy North Carolina 2020. Healthy People 2020² goals are national objectives for improving the health of the nation set by the Department of Health and Human Services' (DHHS) Healthy People Initiative. Healthy North Carolina 2020³ objectives provide a common set of health indicators that the state can work to improve. The North Carolina Institute of Medicine, in collaboration with the Governor's Task Force for Healthy Carolinians; the Division of Public Health, North Carolina Department of Health and Human Services (NC DHHS); the Office of Healthy Carolinians and Health Education, NC DHHS; and the State Center for Health Statistics, NC DHHS, helped lead the development of the Healthy NC 2020 objectives. When comparing to a target, the comparison score is determined by whether the target is met or unmet, and the percent difference between the indicator value and the target value.

Figure 52. Comparison to Target Value

Trend Over Time

As shown in Figure 53, the square represents the measured trend. The Mann-Kendall statistical test for trend is used to assess whether the value for Bladen County is increasing or decreasing over time and whether the trend is statistically significant. The trend comparison uses the four most recent comparable values for the county, and statistical significance is determined at the 90% confidence level. For each indicator with values available for four time periods, a comparison score is determined by the trend's direction and its statistical significance.

Figure 53. Trend Over Time

Missing Values

Indicator scores are calculated using the comparison scores, availability of which depends on the data source. If an indicator does not have data for a specific comparison type that is included for indicator score calculations, the missing comparison is substituted with a neutral score. When information is unknown due to lack of comparable data, the neutral value assumes that the missing comparison score is neither good nor bad and does not impact the indicator's weighted average.

Indicator Scoring

Indicator scores are calculated as a weighted average of all included comparison scores. If none of the included comparison types are possible for an indicator, no score is calculated, and the indicator is excluded from the data scoring results.

² For more information on Healthy People 2020, see <https://www.healthypeople.gov/>

³ For more Information on Healthy North Carolina 2020, see: <https://publichealth.nc.gov/hnc2020/>

Topic Scoring

Indicator scores are averaged by topic area to calculate topic scores. Each indicator may be included in up to three topic areas if appropriate. Resulting scores range from 0-3, where a higher score indicates a greater level of need as evidenced by the data. A topic score is only calculated if it includes at least three indicators.

Age, Gender and Race/Ethnicity Disparities

When a given indicator has data available for population subgroups – such as age, gender and race/ethnicity – and values for these subgroups include confidence intervals, we are able to determine if there is a significant difference between the subgroup's value and the overall value. A significant difference is defined as two values with non-overlapping confidence intervals. Confidence intervals are not available for all indicators. In these cases, disparities cannot be determined because there is not enough data to conclude whether two values are significantly different from each other.

Topic Scoring Table

Table 20 shows the Topic Scores for Bladen County, with higher scores indicating a higher need.

Table 20. Topic Scores for Bladen County

Health and Quality of Life Topics	Score
Heart Disease & Stroke	2.19
Diabetes	2.17
Prevention & Safety	2.15
Older Adults & Aging	2.11
Wellness & Lifestyle	2.09
Maternal, Fetal & Infant Health	2.09
Access to Health Services	2.07
Mental Health & Mental Disorders	1.97

Environment	1.50
Cancer	1.50
Substance Abuse	1.48
Women's Health	1.32
Immunizations & Infectious Diseases	1.22

Indicator Scoring Table

Table 21 (spanning multiple pages) presents the indicator data used in the quantitative data analysis. Indicators are grouped into topic areas and sorted by indicator score, with higher scores indicating a higher need. Bladen County values are displayed alongside various comparison values and the period of measurement. Additional data can be found on [HealthENC.org](https://www.healthnc.org).

Table 21. Indicator Scores by Topic Area

SCORE	ACCESS TO HEALTH SERVICES	MEASUREMENT PERIOD	UNITS	BLADEN COUNTY	NORTH CAROLINA	U.S.	HP2020	HEALTHY NC 2020	HIGH DISPARITY*	SOURCE

English Survey

Eastern North Carolina Community Health Survey 2018

Welcome to the Community Health Survey for Eastern North Carolina!

We are conducting a Community Health Assessment for your county. This assessment is being undertaken by a partnership of 33 counties, hospitals, health systems, and health departments in Eastern North Carolina. It allows these partners to better understand the health status and needs of the community they serve and use the knowledge gained to implement programs that will benefit the community.

We can better understand community needs by gathering voices from the community. This survey allows community members like you to tell us about what you feel are important issues for your community. We estimate that it will take about 20 minutes to complete this ~60 question survey. Your answers to these questions will be kept confidential and anonymous.

Thank you very much for your input and your time! If you have questions about this survey, please contact Will Broughton at will.broughton@foundationhli.org.

Part 1: Quality of Life

First, tell us a little bit about yourself...

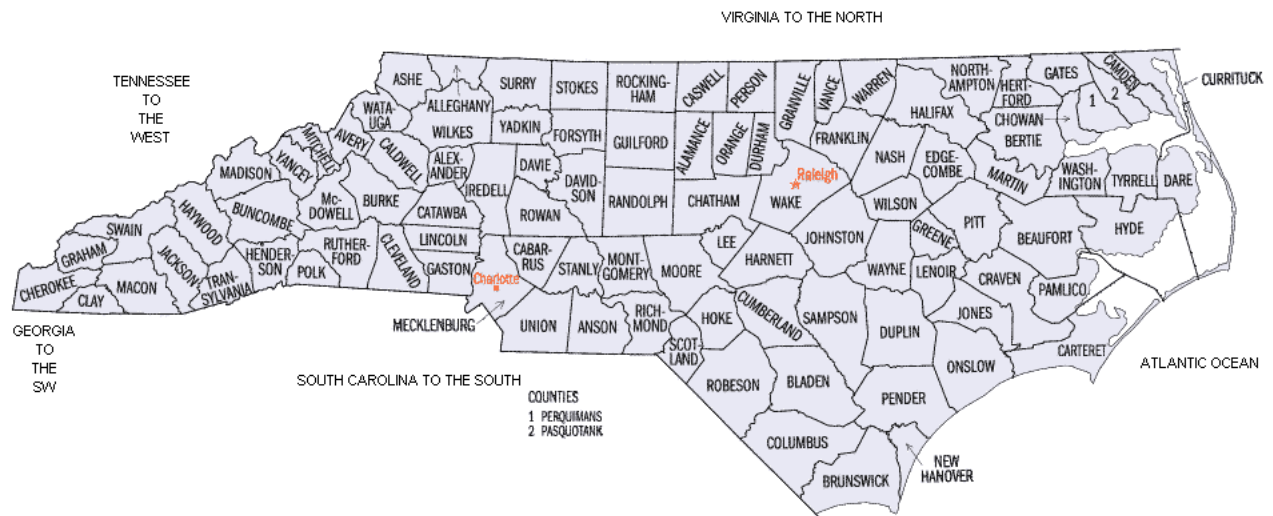

1. Where do you currently live?

ZIP/Postal Code

2. What county do you live in?

<input type="checkbox"/> Beaufort	<input type="checkbox"/> Franklin	<input type="checkbox"/> Onslow
<input type="checkbox"/> Bertie	<input type="checkbox"/> Gates	<input type="checkbox"/> Pamlico
<input type="checkbox"/> Bladen	<input type="checkbox"/> Greene	<input type="checkbox"/> Pasquotank
<input type="checkbox"/> Camden	<input type="checkbox"/> Halifax	<input type="checkbox"/> Pender
<input type="checkbox"/> Carteret	<input type="checkbox"/> Hertford	<input type="checkbox"/> Perquimans
<input type="checkbox"/> Chowan	<input type="checkbox"/> Hoke	<input type="checkbox"/> Pitt
<input type="checkbox"/> Cumberland	<input type="checkbox"/> Hyde	<input type="checkbox"/> Sampson
<input type="checkbox"/> Currituck	<input type="checkbox"/> Johnston	<input type="checkbox"/> Tyrrell
<input type="checkbox"/> Dare	<input type="checkbox"/> Lenoir	<input type="checkbox"/> Washington
<input type="checkbox"/> Duplin	<input type="checkbox"/> Martin	<input type="checkbox"/> Wayne
<input type="checkbox"/> Edgecombe	<input type="checkbox"/> Nash	<input type="checkbox"/> Wilson

North Carolina County Map

3. Think about the county that you live in. Please tell us whether you “strongly disagree”, “disagree”, “neutral”, “agree” or “strongly agree” with each of the next 9 statements.

Statements	Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree
There is good healthcare in my County.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
This County is a good place to raise children.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
This County is a good place to grow old.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
There is plenty of economic opportunity in this County.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
This County is a safe place to live.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
There is plenty of help for people during times of need in this County.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
There is affordable housing that meets my needs in this County.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
There are good parks and recreation facilities in this County.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
It is easy to buy healthy foods in this County.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

PART 2: Community Improvement

The next set of questions will ask about community problems, issues, and services that are important to you. Remember your choices will not be linked to you in any way.

4. Please look at this list of community issues. In your opinion, which one issue most affects the quality of life in this County? (Please choose only one.)

- | | | |
|--|--|--|
| <input type="checkbox"/> Pollution (air, water, land) | <input type="checkbox"/> Discrimination/ racism | <input type="checkbox"/> Domestic violence |
| <input type="checkbox"/> Dropping out of school | <input type="checkbox"/> Lack of community support | <input type="checkbox"/> Violent crime (murder, assault) |
| <input type="checkbox"/> Low income/poverty | <input type="checkbox"/> Drugs (Substance Abuse) | <input type="checkbox"/> Theft |
| <input type="checkbox"/> Homelessness | <input type="checkbox"/> Neglect and abuse | <input type="checkbox"/> Rape/sexual assault |
| <input type="checkbox"/> Lack of/inadequate health insurance | <input type="checkbox"/> Elder abuse | |
| | <input type="checkbox"/> Child abuse | |
| <input type="checkbox"/> Hopelessness | | |
| <input type="checkbox"/> Other (please specify) | | |

5. In your opinion, which one of the following services needs the most improvement in your neighborhood or community? (Please choose only one.)

- | | | |
|--|--|---|
| <input type="checkbox"/> Animal control | <input type="checkbox"/> Number of health care providers | <input type="checkbox"/> Positive teen activities |
| <input type="checkbox"/> Child care options | <input type="checkbox"/> Culturally appropriate health services | <input type="checkbox"/> Transportation options |
| <input type="checkbox"/> Elder care options | <input type="checkbox"/> Counseling/ mental health/ support groups | <input type="checkbox"/> Availability of employment |
| <input type="checkbox"/> Services for disabled people | <input type="checkbox"/> Better/ more healthy food choices | <input type="checkbox"/> Higher paying employment |
| <input type="checkbox"/> More affordable health services | <input type="checkbox"/> Better/ more recreational facilities (parks, trails, community centers) | <input type="checkbox"/> Road maintenance |
| <input type="checkbox"/> More affordable/better housing | <input type="checkbox"/> Healthy family activities | <input type="checkbox"/> Road safety |
| | | <input type="checkbox"/> None |

☐ Other (please specify)

PART 3: Health Information

Now we'd like to hear more about where you get health information...

6. In your opinion, which one health behavior do people in your own community need more information about? (Please suggest only one.)

- | | | |
|---|--|---|
| <input type="checkbox"/> Eating well/
nutrition | <input type="checkbox"/> Using child safety
car seats | <input type="checkbox"/> Substance abuse
prevention (ex: drugs and
alcohol) |
| <input type="checkbox"/> Exercising/ fitness | <input type="checkbox"/> Using seat belts | <input type="checkbox"/> Suicide prevention |
| <input type="checkbox"/> Managing weight | <input type="checkbox"/> Driving safely | <input type="checkbox"/> Stress
management |
| <input type="checkbox"/> Going to a dentist
for check-ups/ preventive
care | <input type="checkbox"/> Quitting smoking/
tobacco use prevention | <input type="checkbox"/> Anger
management |
| <input type="checkbox"/> Going to the
doctor for yearly check-
ups and screenings | <input type="checkbox"/> Child care/
parenting | <input type="checkbox"/> Domestic violence
prevention |
| <input type="checkbox"/> Getting prenatal
care during pregnancy | <input type="checkbox"/> Elder care | <input type="checkbox"/> Crime prevention |
| <input type="checkbox"/> Getting flu shots
and other vaccines | <input type="checkbox"/> Caring for family
members with special
needs/ disabilities | <input type="checkbox"/> Rape/ sexual
abuse prevention |
| <input type="checkbox"/> Preparing for an
emergency/disaster | <input type="checkbox"/> Preventing
pregnancy and sexually
transmitted disease (safe
sex) | <input type="checkbox"/> None |

☐ Other (please specify)

7. Where do you get most of your health-related information? (*Please choose only one.*)

- | | | |
|---|--|--|
| <input type="checkbox"/> Friends and family | <input type="checkbox"/> Internet | <input type="checkbox"/> Employer |
| <input type="checkbox"/> Doctor/nurse | <input type="checkbox"/> My child's school | <input type="checkbox"/> Help lines |
| <input type="checkbox"/> Pharmacist | <input type="checkbox"/> Hospital | <input type="checkbox"/> Books/magazines |
| <input type="checkbox"/> Church | <input type="checkbox"/> Health department | |
| <input type="checkbox"/> Other (please specify) | | |

8. What health topic(s)/ disease(s) would you like to learn more about?

9. Do you provide care for an elderly relative at your residence or at another residence?
(Choose only one.)

☐ Yes

☐ No

10. Do you have children between the ages of 9 and 19 for whom you are the caretaker?
(Includes step-children, grandchildren, or other relatives.) (Choose only one.)

☐ Yes

☐ No *(if No, skip to question #12)*

11. Which of the following health topics do you think your child/children need(s) more information about? (Check all that apply.)

☐ Dental hygiene

☐ Diabetes

☐ Drug abuse

☐ Nutrition

☐ management

☐ Reckless

☐ Eating disorders

☐ Tobacco

☐ driving/speeding

☐ Fitness/Exercise

☐ STDs (Sexually

☐ Mental health

☐ Asthma

☐ Transmitted Diseases)

☐ issues

☐ management

☐ Sexual intercourse

☐ Suicide prevention

☐ Alcohol

☐ Other (please specify)

PART 4: Personal Health

These next questions are about your own personal health. Remember, the answers you give for this survey will not be linked to you in any way.

12. Would you say that, in general, your health is... (Choose only one.)

- ☐ Excellent
- ☐ Very Good
- ☐ Good
- ☐ Fair
- ☐ Poor
- ☐ Don't know/not sure

13. Have you ever been told by a doctor, nurse, or other health professional that you have any of the following health conditions?

	Yes	No	Don't Know
Asthma	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Depression or anxiety	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
High blood pressure	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
High cholesterol	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Diabetes (not during pregnancy)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Osteoporosis	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Overweight/obesity	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Angina/heart disease	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Cancer	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

14. Which of the following preventive services have you had in the past 12 months? (Check all that apply.)

- | | | |
|--|--|---|
| <input type="checkbox"/> Mammogram | <input type="checkbox"/> Bone density test | <input type="checkbox"/> Vision screening |
| <input type="checkbox"/> Prostate cancer screening | <input type="checkbox"/> Physical exam | <input type="checkbox"/> Cardiovascular screening |
| <input type="checkbox"/> Colon/rectal exam | <input type="checkbox"/> Pap smear | <input type="checkbox"/> Dental cleaning/X-rays |
| <input type="checkbox"/> Blood sugar check | <input type="checkbox"/> Flu shot | <input type="checkbox"/> None of the above |
| <input type="checkbox"/> Cholesterol check | <input type="checkbox"/> Blood pressure check | |
| <input type="checkbox"/> Hearing screening | <input type="checkbox"/> Skin cancer screening | |

15. About how long has it been since you last visited a dentist or dental clinic for any reason? Include visits to dental specialists, such as orthodontists. (Choose only one.)

- ☐ Within the past year (anytime less than 12 months ago)
- ☐ Within the past 2 years (more than 1 year but less than 2 years ago)
- ☐ Within the past 5 years (more than 2 years but less than 5 years ago)
- ☐ Don't know/not sure
- ☐ Never

16. In the past 30 days, have there been any days when feeling sad or worried kept you from going about your normal activities? (Choose only one.)

- ☐ Yes
- ☐ No
- ☐ Don't know/not sure

17. The next question is about alcohol. One drink is equivalent to a 12-ounce beer, a 5 ounce glass of wine, or a drink with one shot of liquor.

Considering all types of alcoholic beverages, how many times during the past 30 days did you have 5 or more drinks (if male) or 4 or more drinks (if female) on an occasion?

<input type="checkbox"/> 0	<input type="checkbox"/> 4	<input type="checkbox"/> 8	<input type="checkbox"/> 12	<input type="checkbox"/> 16	<input type="checkbox"/> 20	<input type="checkbox"/> 24	<input type="checkbox"/> 28
<input type="checkbox"/> 1	<input type="checkbox"/> 5	<input type="checkbox"/> 9	<input type="checkbox"/> 13	<input type="checkbox"/> 17	<input type="checkbox"/> 21	<input type="checkbox"/> 25	<input type="checkbox"/> 29
<input type="checkbox"/> 2	<input type="checkbox"/> 6	<input type="checkbox"/> 10	<input type="checkbox"/> 14	<input type="checkbox"/> 18	<input type="checkbox"/> 22	<input type="checkbox"/> 26	<input type="checkbox"/> 30
<input type="checkbox"/> 3	<input type="checkbox"/> 7	<input type="checkbox"/> 11	<input type="checkbox"/> 15	<input type="checkbox"/> 19	<input type="checkbox"/> 23	<input type="checkbox"/> 27	
<input type="checkbox"/> Don' t know / not sure							

18. Now we will ask a question about drug use. The answers that people give us about their use of drugs are important for understanding health issues in the county. We know that this information is personal, but remember your answers will be kept confidential.

Have you used any illegal drugs within the past 30 days? When we say illegal drugs this includes marijuana, cocaine, crack cocaine, heroin, or any other illegal drug substance. On about how many days have you used one of these drugs? (*Choose only one.*)

<input type="checkbox"/> 0	<input type="checkbox"/> 4	<input type="checkbox"/> 8	<input type="checkbox"/> 12	<input type="checkbox"/> 16	<input type="checkbox"/> 20	<input type="checkbox"/> 24	<input type="checkbox"/> 28
<input type="checkbox"/> 1	<input type="checkbox"/> 5	<input type="checkbox"/> 9	<input type="checkbox"/> 13	<input type="checkbox"/> 17	<input type="checkbox"/> 21	<input type="checkbox"/> 25	<input type="checkbox"/> 29
<input type="checkbox"/> 2	<input type="checkbox"/> 6	<input type="checkbox"/> 10	<input type="checkbox"/> 14	<input type="checkbox"/> 18	<input type="checkbox"/> 22	<input type="checkbox"/> 26	<input type="checkbox"/> 30
<input type="checkbox"/> 3	<input type="checkbox"/> 7	<input type="checkbox"/> 11	<input type="checkbox"/> 15	<input type="checkbox"/> 19	<input type="checkbox"/> 23	<input type="checkbox"/> 27	
<input type="checkbox"/> Don' t know / not sure							

(if you responded 0, skip to question #20)

19. During the past 30 days, which illegal drug did you use? (*Check all that apply.*)

☐ Marijuana

☐ Cocaine

☐ Heroin

☐ Other (please specify)

--

20. During the past 30 days, have you taken any prescription drugs that you did not have a prescription for (such as Oxycontin, Percocet, Demerol, Adderall, Ritalin, or Xanax)? How many times during the past 30 days did you use a prescription drug that you did not have a prescription for? (Choose only one.)

- | | | | | | | | |
|----------------------------|----------------------------|-----------------------------|-----------------------------|-----------------------------|-----------------------------|-----------------------------|-----------------------------|
| <input type="checkbox"/> 0 | <input type="checkbox"/> 4 | <input type="checkbox"/> 8 | <input type="checkbox"/> 12 | <input type="checkbox"/> 16 | <input type="checkbox"/> 20 | <input type="checkbox"/> 24 | <input type="checkbox"/> 28 |
| <input type="checkbox"/> 1 | <input type="checkbox"/> 5 | <input type="checkbox"/> 9 | <input type="checkbox"/> 13 | <input type="checkbox"/> 17 | <input type="checkbox"/> 21 | <input type="checkbox"/> 25 | <input type="checkbox"/> 29 |
| <input type="checkbox"/> 2 | <input type="checkbox"/> 6 | <input type="checkbox"/> 10 | <input type="checkbox"/> 14 | <input type="checkbox"/> 18 | <input type="checkbox"/> 22 | <input type="checkbox"/> 26 | <input type="checkbox"/> 30 |
| <input type="checkbox"/> 3 | <input type="checkbox"/> 7 | <input type="checkbox"/> 11 | <input type="checkbox"/> 15 | <input type="checkbox"/> 19 | <input type="checkbox"/> 23 | <input type="checkbox"/> 27 | |
- ☐ Don' t know / not sure

21. The next question relates to veteran's health. Have you ever served on active duty in the US Armed Forces (not including active duty only for training in the Reserves or National Guard)? (Choose only one.)

- ☐ Yes
- ☐ No *(if No, skip to question #23)*

22. Has a doctor or other health professional ever told you that you have depression, anxiety, or post traumatic stress disorder (PTSD)? (Choose only one.)

- ☐ Yes
- ☐ No

23. Now we'd like to know about your fitness. During a normal week, other than in your regular job, do you engage in any physical activity or exercise that lasts at least a half an hour? (Choose only one.)

- ☐ Yes
- ☐ No *(if No, skip to question #26)*
- ☐ Don' t know/not sure *(if Don't know/not sure, skip to question #26)*

24. Since you said yes, how many times do you exercise or engage in physical activity during a normal week?

25. Where do you go to exercise or engage in physical activity? (Check all that apply.)

- | | |
|---|--|
| <input type="checkbox"/> YMCA | <input type="checkbox"/> Worksite/Employer |
| <input type="checkbox"/> Park | <input type="checkbox"/> School Facility/Grounds |
| <input type="checkbox"/> Public Recreation Center | <input type="checkbox"/> Home |
| <input type="checkbox"/> Private Gym | <input type="checkbox"/> Place of Worship |
| <input type="checkbox"/> Other (please specify) | |

Since you responded YES to #23 (physical activity/exercise), skip to question #27.

26. Since you said "no", what are the reasons you do not exercise for at least a half hour during a normal week? You can give as many of these reasons as you need to.

- | | |
|--|---|
| <input type="checkbox"/> My job is physical or hard labor | <input type="checkbox"/> I would need child care and I don't have it. |
| <input type="checkbox"/> Exercise is not important to me. | |
| <input type="checkbox"/> I don't have access to a facility that has the things I need, like a pool, golf course, or a track. | <input type="checkbox"/> I don't know how to find exercise partners. |
| <input type="checkbox"/> I don't have enough time to exercise. | <input type="checkbox"/> I don't like to exercise. |
| | <input type="checkbox"/> It costs too much to exercise. |

☐ There is no safe place to exercise.

☐ I'm too tired to exercise.

☐ I would need transportation and I
don't have it.

☐ I'm physically disabled.

☐ I don't know

☐ Other (please specify)

27. Not counting lettuce salad or potato products such as french fries, think about how often you eat fruits and vegetables in an average week.

How many cups per week of fruits and vegetables would you say you eat? (*One apple or 12 baby carrots equal one cup.*)

Number of Cups of Fruit

Number of Cups of Vegetables

Number of Cups of 100% Fruit Juice

28. Have you ever been exposed to secondhand smoke in the past year? (*Choose only one.*)

☐

Yes

☐

No (*if No, skip to question #30*)

☐

Don't know/not sure (*if Don't know/not sure, skip to question #30*)

29. If yes, where do you think you are exposed to secondhand smoke most often? (*Check only one.*)

☐

Home

☐

Workplace

☐

Hospitals

☐

Restaurants

☐

School

☐

I am not exposed to secondhand smoke.

☐

Other (please specify)

30. Do you currently use tobacco products? (This includes cigarettes, electronic cigarettes, chewing tobacco and vaping.) (Choose only one.)

- ☐ Yes
- ☐ No *(if No, skip to question #32)*

31. If yes, where would you go for help if you wanted to quit? (Choose only one).

- | | |
|--|---|
| <input type="checkbox"/> Quit Line NC | <input type="checkbox"/> Health Department |
| <input type="checkbox"/> Doctor | <input type="checkbox"/> I don't know |
| <input type="checkbox"/> Pharmacy | <input type="checkbox"/> Not applicable; I don't want to quit |
| <input type="checkbox"/> Private counselor/therapist | |
| <input type="checkbox"/> Other (please specify) | |

32. Now we will ask you questions about your personal flu vaccines. An influenza/flu vaccine can be a "flu shot" injected into your arm or spray like "FluMist" which is sprayed into your nose. During the past 12 months, have you had a seasonal flu vaccine? (Choose only one.)

- ☐ Yes, flu shot

- ☐ Yes, flu spray
- ☐ Yes, both
- ☐ No
- ☐ Don' t know/not sure

[Part 5: Access to Care/Family Health](#)

33. Where do you go most often when you are sick? (*Choose only one.*)

- | | |
|---|---|
| <input type="checkbox"/> Doctor' s office | <input type="checkbox"/> Medical clinic |
| <input type="checkbox"/> Health department | <input type="checkbox"/> Urgent care center |
| <input type="checkbox"/> Hospital | |
| <input type="checkbox"/> Other (please specify) | |

34. Do you have any of the following types of health insurance or health care coverage? (*Choose all that apply.*)

- ☐ Health insurance my employer provides
- ☐ Health insurance my spouse's employer provides
- ☐ Health insurance my school provides
- ☐ Health insurance my parent or my parent's employer provides
- ☐ Health insurance I bought myself
- ☐ Health insurance through Health Insurance Marketplace (Obamacare)
- ☐ The military, Tricare, or the VA
- ☐ Medicaid
- ☐ Medicare
- ☐ No health insurance of any kind

35. In the past 12 months, did you have a problem getting the health care you needed for you personally or for a family member from any type of health care provider, dentist, pharmacy, or other facility? (Choose only one.)

- ☐ Yes
- ☐ No *(if No, skip to question #38)*
- ☐ Don't know/not sure

36. Since you said "yes," what type of provider or facility did you or your family member have trouble getting health care from? You can choose as many of these as you need to.

- | | | |
|---|---|---|
| <input type="checkbox"/> Dentist | <input type="checkbox"/> Pharmacy/
prescriptions | <input type="checkbox"/> Hospital |
| <input type="checkbox"/> General practitioner | <input type="checkbox"/> Pediatrician | <input type="checkbox"/> Urgent Care Center |
| <input type="checkbox"/> Eye care/
optometrist/
ophthalmologist | <input type="checkbox"/> OB/GYN | <input type="checkbox"/> Medical Clinic |
| | <input type="checkbox"/> Health
department | <input type="checkbox"/> Specialist |

☐ Other (please specify)

37. Which of these problems prevented you or your family member from getting the necessary health care? You can choose as many of these as you need to.

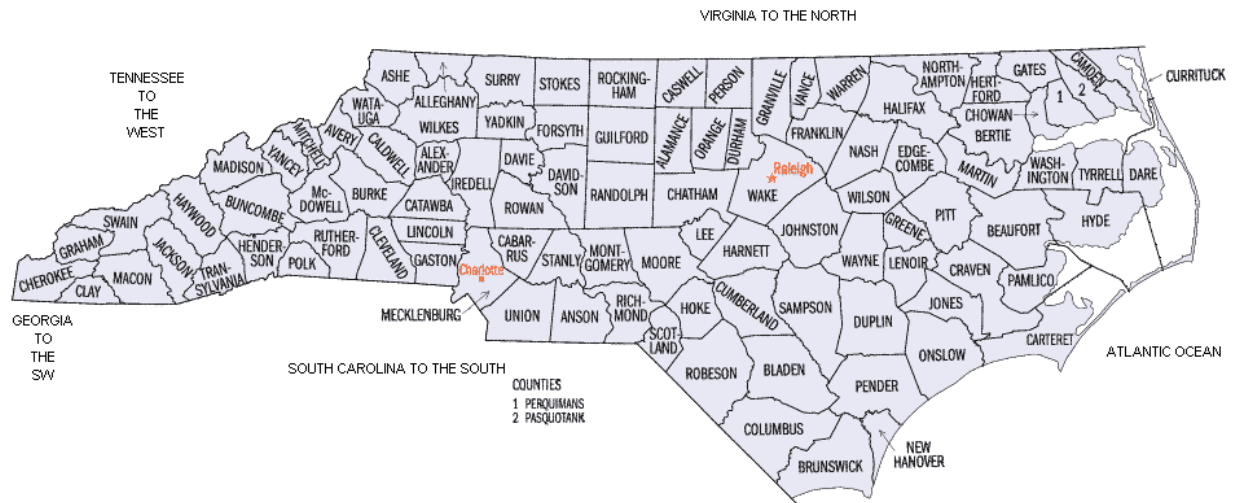

- ☐ No health insurance.
- ☐ Insurance didn't cover what I/we needed.

- ☐ My/our share of the cost (deductible/co-pay) was too high.
- ☐ Doctor would not take my/our insurance or Medicaid.
- ☐ Hospital would not take my/our insurance.
- ☐ Pharmacy would not take my/our insurance or Medicaid.
- ☐ Dentist would not take my/our insurance or Medicaid.
- ☐ No way to get there.
- ☐ Didn't know where to go.
- ☐ Couldn't get an appointment.
- ☐ The wait was too long.
- ☐ The provider denied me care or treated me in a discriminatory manner because of my HIV status, or because I am an LGBT individual.

38. In what county are most of the medical providers you visit located? (*Choose only one.*)

- | | | | |
|---|------------------------------------|--------------------------------------|---------------------------------------|
| <input type="checkbox"/> Beaufort | <input type="checkbox"/> | <input type="checkbox"/> Martin | <input type="checkbox"/> Pitt |
| <input type="checkbox"/> Bertie | <input type="checkbox"/> Edgecombe | <input type="checkbox"/> Moore | <input type="checkbox"/> Richmond |
| <input type="checkbox"/> Bladen | <input type="checkbox"/> Franklin | <input type="checkbox"/> Nash | <input type="checkbox"/> Robeson |
| <input type="checkbox"/> Brunswick | <input type="checkbox"/> Gates | <input type="checkbox"/> New | <input type="checkbox"/> Sampson |
| <input type="checkbox"/> Camden | <input type="checkbox"/> Granville | <input type="checkbox"/> Hanover | <input type="checkbox"/> Scotland |
| <input type="checkbox"/> Carteret | <input type="checkbox"/> Greene | <input type="checkbox"/> | <input type="checkbox"/> Tyrrell |
| <input type="checkbox"/> Chowan | <input type="checkbox"/> Halifax | <input type="checkbox"/> Northampton | <input type="checkbox"/> Vance |
| <input type="checkbox"/> Columbus | <input type="checkbox"/> Harnett | <input type="checkbox"/> Onslow | <input type="checkbox"/> Wake |
| <input type="checkbox"/> Craven | <input type="checkbox"/> Hertford | <input type="checkbox"/> Pamlico | <input type="checkbox"/> Warren |

| <input type="checkbox"/> Cumberland | <input type="checkbox"/> Hyde | <input type="checkbox"/> Pasquotank | <input type="checkbox"/> Wayne |
| <input type="checkbox"/> Currituck | <input type="checkbox"/> Johnston | <input type="checkbox"/> Pender | <input type="checkbox"/> Wilson |
| <input type="checkbox"/> Dare | <input type="checkbox"/> Jones | <input type="checkbox"/> | <input type="checkbox"/> The State of |
| <input type="checkbox"/> Duplin | <input type="checkbox"/> Lenoir | <input type="checkbox"/> Perquimans | <input type="checkbox"/> Virginia |
| <input type="checkbox"/> Other (please specify) | | | |

North Carolina County Map

39. In the previous 12 months, were you ever worried about whether your family's food would run out before you got money to buy more? (*Choose only one.*)

- ☐ Yes
- ☐ No
- ☐ Don' t know/not sure

40. If a friend or family member needed counseling for a mental health or a drug/alcohol abuse problem, who is the first person you would tell them to talk to? (*Choose only one.*)

- | | |
|--|---|
| <input type="checkbox"/> Private counselor or therapist | <input type="checkbox"/> Don't know |
| <input type="checkbox"/> Support group (e.g., AA, Al-Anon) | <input type="checkbox"/> Doctor |
| <input type="checkbox"/> School counselor | <input type="checkbox"/> Pastor/Minister/Clergy |
| <input type="checkbox"/> Other (please specify) | |

Part 6: Emergency Preparedness

41. Does your household have working smoke and carbon monoxide detectors? (*Choose only one.*)

- ☐ Yes, smoke detectors only
- ☐ Yes, both
- ☐ Don't know/not sure
- ☐ Yes, carbon monoxide detectors only
- ☐ No

42. Does your family have a basic emergency supply kit? (These kits include water, non-perishable food, any necessary prescriptions, first aid supplies, flashlight and batteries, non-electric can opener, blanket, etc.)

- ☐ Yes
- ☐ No
- ☐ Don't know/not sure

If yes, how many days do you have supplies for? (Write number of days)

43. What would be your main way of getting information from authorities in a large-scale disaster or emergency? (*Check only one.*)

- | | |
|--|--|
| <input type="checkbox"/> Television | <input type="checkbox"/> Social networking site |
| <input type="checkbox"/> Radio | <input type="checkbox"/> Neighbors |
| <input type="checkbox"/> Internet | <input type="checkbox"/> Family |
| <input type="checkbox"/> Telephone (landline) | <input type="checkbox"/> Text message (emergency alert system) |
| <input type="checkbox"/> Cell Phone | <input type="checkbox"/> Don't know/not sure |
| <input type="checkbox"/> Print media (ex: newspaper) | |

☐ Other (please specify)

44. If public authorities announced a mandatory evacuation from your neighborhood or community due to a large-scale disaster or emergency, would you evacuate?

(Check only one.)

☐ Yes *(if Yes, skip to question #46)*

☐ No

☐ Don't know/not sure

45. What would be the main reason you might not evacuate if asked to do so? (Check only one.)

☐ Lack of transportation

☐ Concern about leaving pets

☐ Lack of trust in public officials

☐ Concern about traffic jams and inability to get out

☐ Concern about leaving property behind

☐ Health problems (could not be moved)

☐ Concern about personal safety

☐ Concern about family safety

☐ Don't know/not sure

☐ Other (please specify)

Part 7: Demographic Questions

The next set of questions are general questions about you, which will only be reported as a summary of all answers given by survey participants. Your answers will remain anonymous.

46. How old are you? (Choose only one.)

- | | | |
|--------------------------------|--------------------------------|--------------------------------------|
| <input type="checkbox"/> 15-19 | <input type="checkbox"/> 40-44 | <input type="checkbox"/> 65-69 |
| <input type="checkbox"/> 20-24 | <input type="checkbox"/> 45-49 | <input type="checkbox"/> 70-74 |
| <input type="checkbox"/> 25-29 | <input type="checkbox"/> 50-54 | <input type="checkbox"/> 75-79 |
| <input type="checkbox"/> 30-34 | <input type="checkbox"/> 55-59 | <input type="checkbox"/> 80-84 |
| <input type="checkbox"/> 35-39 | <input type="checkbox"/> 60-64 | <input type="checkbox"/> 85 or older |

47. What is your gender? (Choose only one.)

- ☐ Male
- ☐ Female
- ☐ Transgender
- ☐ Gender non-conforming
- ☐ Other

48. Are you of Hispanic, Latino, or Spanish origin? (Choose only one).

- ☐ I am not of Hispanic, Latino or Spanish origin
- ☐ Mexican, Mexican American, or Chicano
- ☐ Puerto Rican
- ☐ Cuban or Cuban American
- ☐ Other Hispanic or Latino (please specify)

49. What is your race? (*Choose only one.*)

- ☐ White or Caucasian
- ☐ Black or African American
- ☐ American Indian or Alaska Native
- ☐ Asian Indian
- ☐ Other Asian including Japanese, Chinese, Korean, Vietnamese, and Filipino/a
- ☐ Other Pacific Islander including Native Hawaiian, Samoan, Guamanian/Chamorro
- ☐ Other race not listed here (please specify)

50. Is English the primary language spoken in your home? (*Choose only one.*)

- ☐ Yes
- ☐ No. If no, please specify the primary language spoken in your home.

51. What is your marital status? (*Choose only one.*)

- ☐ Never married/single
- ☐ Married
- ☐ Unmarried partner
- ☐ Divorced

☐

Widowed

☐

Separated

☐

Other (please specify)

52. Select the highest level of education you have achieved. (Choose only one.)

- ☐ Less than 9th grade
- ☐ 9-12th grade, no diploma
- ☐ High School graduate (or GED/equivalent)
- ☐ Associate's Degree or Vocational Training
- ☐ Some college (no degree)
- ☐ Bachelor's degree
- ☐ Graduate or professional degree
- ☐ Other (please specify)

53. What was your total household income last year, before taxes? (Choose only one.)

- | | |
|---|---|
| <input type="checkbox"/> Less than \$10,000 | <input type="checkbox"/> \$35,000 to \$49,999 |
| <input type="checkbox"/> \$10,000 to \$14,999 | <input type="checkbox"/> \$50,000 to \$74,999 |
| <input type="checkbox"/> \$15,000 to \$24,999 | <input type="checkbox"/> \$75,000 to \$99,999 |
| <input type="checkbox"/> \$25,000 to \$34,999 | <input type="checkbox"/> \$100,000 or more |

54. Enter the number of individuals in your household (including yourself).

55. What is your employment status? (Check all that apply.)

- | | |
|---|---------------------------------------|
| <input type="checkbox"/> Employed full-time | <input type="checkbox"/> Armed forces |
| <input type="checkbox"/> Employed part-time | <input type="checkbox"/> Disabled |
| <input type="checkbox"/> Retired | <input type="checkbox"/> Student |

- ☐ Homemaker
- ☐ Self-employed
- ☐ Unemployed for 1 year or less
- ☐ Unemployed for more than 1
year

56. Do you have access to the Internet at home (including broadband, wifi, dial-up or cellular data)?
(Choose only one.)

- ☐ Yes
- ☐ No
- ☐ Don't know/not sure

57. (Optional) Is there anything else you would like us to know about your community? Please feel free to tell us below.

Thank you for your time and participation!

If you have questions about this survey, please contact us at will.broughton@foundationhli.org.

Encuesta de salud de la comunidad del Este de Carolina del Norte 2018

¡Bienvenido a la encuesta de salud comunitaria para el Este de Carolina del Norte!

Estamos llevando a cabo una evaluación de salud comunitaria para su condado. Esta evaluación está siendo realizada por una asociación de 33 condados, hospitales, sistemas de salud y departamentos de salud en el Este de Carolina del Norte. Esta evaluación les permite a estos socios comprender mejor el estado de salud y las necesidades de la comunidad a la que sirven y utilizar el conocimiento adquirido para implementar programas que beneficiarán a esta comunidad.

Podemos entender mejor las necesidades de la comunidad reuniendo las voces de los miembros de su comunidad. Esta evaluación permite que los miembros de la comunidad como usted, nos cuente sobre lo que considera son asuntos importantes para su comunidad. De ante mano le agradecemos por los 20 minutos que tomará completar esta encuesta de 57 preguntas. Sus respuestas a estas preguntas se mantendrán confidenciales y anónimas.

¡Muchas gracias por su aporte y su tiempo! Si tiene preguntas sobre esta encuesta, puede enviar un correo electrónico a Will Broughton en will.broughton@foundationhli.org.

PARTE 1: Calidad de vida

Primero, cuéntenos un poco sobre usted:

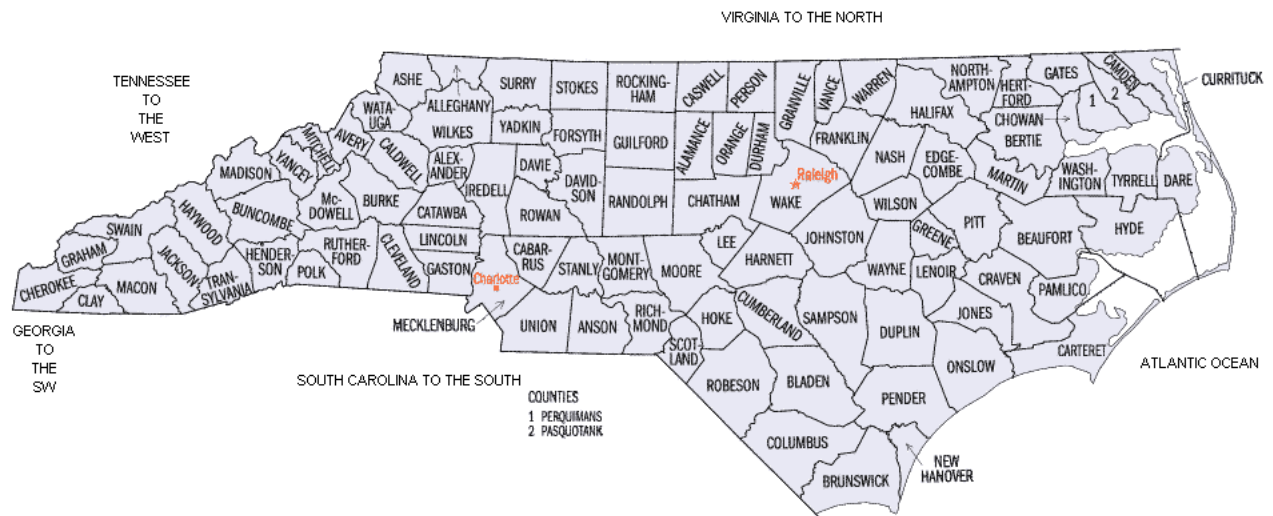

3. ¿Dónde vive actualmente?

Código postal

4. ¿En qué condado vive?

<input type="checkbox"/> Beaufort	<input type="checkbox"/> Franklin	<input type="checkbox"/> Onslow
<input type="checkbox"/> Bertie	<input type="checkbox"/> Gates	<input type="checkbox"/> Pamlico
<input type="checkbox"/> Bladen	<input type="checkbox"/> Greene	<input type="checkbox"/> Pasquotank
<input type="checkbox"/> Camden	<input type="checkbox"/> Halifax	<input type="checkbox"/> Pender
<input type="checkbox"/> Carteret	<input type="checkbox"/> Hertford	<input type="checkbox"/> Perquimans
<input type="checkbox"/> Chowan	<input type="checkbox"/> Hoke	<input type="checkbox"/> Pitt
<input type="checkbox"/> Cumberland	<input type="checkbox"/> Hyde	<input type="checkbox"/> Sampson
<input type="checkbox"/> Currituck	<input type="checkbox"/> Johnston	<input type="checkbox"/> Tyrrell
<input type="checkbox"/> Dare	<input type="checkbox"/> Lenoir	<input type="checkbox"/> Washington
<input type="checkbox"/> Duplin	<input type="checkbox"/> Martin	<input type="checkbox"/> Wayne
<input type="checkbox"/> Edgecombe	<input type="checkbox"/> Nash	<input type="checkbox"/> Wilson

Mapa del condado de Carolina del Norte

3. Piense en el condado en el que vive. Por favor díganos si está "totalmente en desacuerdo", "en desacuerdo", "neutral", "de acuerdo" o "muy de acuerdo" con cada una de las siguientes 9 declaraciones.

Declaración	Muy en desacuerdo	En desacuerdo	Neutral	De acuerdo	Muy de acuerdo
Hay una buena atención médica en mi condado.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Este condado es un buen lugar para criar niños.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Este condado es un buen lugar para envejecer.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Hay buenas oportunidades económicas en este condado.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Este condado es un lugar seguro para vivir.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Hay mucha ayuda para las personas durante los momentos de necesidad en este condado.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Hay viviendas accesibles que satisfacen mis necesidades en este condado.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Hay buenos parques e instalaciones de recreación en este condado.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Es fácil adquirir comidas saludables en este condado.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

PARTE 2: Mejora de la comunidad

La siguiente serie de preguntas le preguntará sobre problemas y servicios de la comunidad que son importantes para usted. Recuerde que sus respuestas son privadas y no serán relacionadas con usted en ninguna manera.

4. Mire esta lista de problemas de la comunidad. En su opinión, ¿qué problema afecta más la calidad de vida en este condado? (Elija solo una respuesta)

- | | | |
|--|--|---|
| <input type="checkbox"/> Contaminación
(aire, agua, tierra) | <input type="checkbox"/> Discriminación /
racismo | <input type="checkbox"/> Violencia
doméstica |
| <input type="checkbox"/> Abandono de la
escuela | <input type="checkbox"/> Falta de apoyo de
la comunidad | <input type="checkbox"/> Delito violento
(asesinato, asalto) |
| <input type="checkbox"/> Bajos ingresos /
pobreza | <input type="checkbox"/> Drogas (Abuso de
sustancias) | <input type="checkbox"/> Robo |
| <input type="checkbox"/> Falta de hogar | <input type="checkbox"/> Descuido y abuso | <input type="checkbox"/> Violación /
agresión sexual |
| <input type="checkbox"/> Falta de un seguro
de salud adecuado | <input type="checkbox"/> Maltrato a
personas mayores | |
| <input type="checkbox"/> Desesperación | <input type="checkbox"/> Abuso infantil | |
| <input type="checkbox"/> Otros (especificar) | | |

5. En su opinión, ¿cuál de los siguientes servicios necesita la mayor mejoría en su vecindario o comunidad? (Por favor elija solo uno)

- | | | |
|--|---|---|
| <input type="checkbox"/> Control Animal | <input type="checkbox"/> Número de | <input type="checkbox"/> Actividades |
| <input type="checkbox"/> Opciones de | proveedores de atención | positivas para |
| cuidado infantil | médica | adolescentes |
| <input type="checkbox"/> Opciones de | <input type="checkbox"/> Servicios de salud | <input type="checkbox"/> Opciones de |
| cuidado para ancianos | apropiados de acuerdo a | transporte |
| <input type="checkbox"/> Servicios para | su cultura | <input type="checkbox"/> Disponibilidad de |
| personas con | <input type="checkbox"/> Consejería / salud | empleo |
| discapacidad | mental / grupos de apoyo | <input type="checkbox"/> Empleos mejor |
| <input type="checkbox"/> Servicios de salud | <input type="checkbox"/> Mejores y más | pagados |
| más accesibles | instalaciones recreativas | <input type="checkbox"/> Mantenimiento de |
| <input type="checkbox"/> Mejores y más | (parques, senderos, | carreteras |
| opciones de alimentos | centros comunitarios) | <input type="checkbox"/> Carreteras seguras |
| saludables | <input type="checkbox"/> Actividades | <input type="checkbox"/> Ninguna |
| <input type="checkbox"/> Más accesibilidad / | familiares saludables | |
| mejores vivienda | | |
| <input type="checkbox"/> Otros (especificar) | | |

PARTE 3: Información de salud

Ahora nos gustaría saber un poco más sobre dónde usted obtiene información de salud.

6. En su opinión, ¿sobre qué área de salud necesitan más información las personas de su comunidad? (Por favor sugiera solo uno)

- | | | |
|--|--|--|
| <input type="checkbox"/> Comer bien /
nutrición | <input type="checkbox"/> Usar asientos de
seguridad para niños | <input type="checkbox"/> transmisión sexual (sexo
seguro) |
| <input type="checkbox"/> Ejercicio | <input type="checkbox"/> Usar cinturones de
seguridad | <input type="checkbox"/> Prevención del
abuso de sustancias (por
ejemplo, drogas y
alcohol) |
| <input type="checkbox"/> Manejo del peso | <input type="checkbox"/> Conducir
cuidadosamente | <input type="checkbox"/> Prevención del
suicidio |
| <input type="checkbox"/> Ir a un dentista
para chequeos / cuidado
preventivo | <input type="checkbox"/> Dejar de fumar /
prevención del uso de
tabaco | <input type="checkbox"/> Manejo del estrés |
| <input type="checkbox"/> Ir al médico para
chequeos y exámenes
anuales | <input type="checkbox"/> Cuidado de niños /
crianza | <input type="checkbox"/> Control de la
ira/enojo |
| <input type="checkbox"/> Obtener cuidado
prenatal durante el
embarazo | <input type="checkbox"/> Cuidado de
ancianos | <input type="checkbox"/> Prevención de
violencia doméstica |
| <input type="checkbox"/> Recibir vacunas
contra la gripe y otras
vacunas | <input type="checkbox"/> Cuidado de
miembros de familia con
necesidades especiales o
discapacidades | <input type="checkbox"/> Prevención del
crimen |
| <input type="checkbox"/> Prepararse para
una emergencia /
desastre | <input type="checkbox"/> Prevención del
embarazo y
enfermedades de | <input type="checkbox"/> Violación /
prevención de abuso
sexual |
| | | <input type="checkbox"/> Ninguna |

☐

Otros (especificar)

| | <input type="checkbox"/> Relación sexual | <input type="checkbox"/> Prevención del |
| | <input type="checkbox"/> Alcohol | suicidio |
| <input type="checkbox"/> Otros (especificar) | | |

PARTE 4: Salud personal

Las siguientes preguntas son sobre su salud personal. Recuerde, las respuestas que brinde para esta encuesta no serán ligadas con usted de ninguna manera.

12. En general, diría que su salud es... (Elija solo una).

- ☐ Excelente
- ☐ Muy buena
- ☐ Buena
- ☐ Justa
- ☐ Pobre
- ☐ No sé / no estoy seguro

13. ¿Alguna vez un médico, enfermera u otro profesional de la salud le dijo que tiene alguna de las siguientes condiciones de salud?

	Sí	No	No lo sé
Asma	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Depresión o ansiedad	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Alta presión sanguínea	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Colesterol alto	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Diabetes (no durante el embarazo)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Osteoporosis	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Sobrepeso / obesidad	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Angina / enfermedad cardíaca	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Cáncer	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

14. ¿Cuál de los siguientes servicios preventivos ha tenido usted en los últimos 12 meses?
(Seleccione todas las opciones que corresponden).

- | | | |
|--|--|---|
| <input type="checkbox"/> Mamografía | <input type="checkbox"/> Prueba de | <input type="checkbox"/> Examen de la vista |
| <input type="checkbox"/> Examen de cáncer | densidad de los huesos | <input type="checkbox"/> Evaluación |
| de próstata | <input type="checkbox"/> Examen físico | cardiovascular (el |
| <input type="checkbox"/> Examen de colon / | <input type="checkbox"/> Prueba de | corazón) |
| recto | Papanicolaou | <input type="checkbox"/> Limpieza dental / |
| <input type="checkbox"/> Control de azúcar | <input type="checkbox"/> Vacuna contra la | radiografías |
| en la sangre | gripe | <input type="checkbox"/> Ninguna de las |
| <input type="checkbox"/> Examen de | <input type="checkbox"/> Control de la | anteriores |
| Colesterol | presión arterial | |
| <input type="checkbox"/> Examen de | <input type="checkbox"/> Pruebas de cáncer | |
| audición (escucha) | de piel | |

15. ¿Cuánto tiempo hace desde la última vez que visitó a un dentista o clínica dental por algún motivo? Incluya visitas a especialistas dentales, como ortodoncista. (Elija solo una).

- ☐ En el último año (en los últimos 12 meses)
- ☐ Hace 2 (más de un año pero menos de dos años)
- ☐ Hace más de 5 años (más de 2 años pero menos de 5 años)
- ☐ No sé / no estoy seguro
- ☐ Nunca

16. En los últimos 30 días, ¿ha habido algún día que se ha sentido triste o preocupado y le haya impedido realizar sus actividades normales? (Elija solo una).

- ☐ Sí

☐

No

☐

No sé / no estoy seguro

17. La siguiente pregunta es sobre el alcohol. Un trago es equivalente a una cerveza de 12 onzas, una copa de vino de 5 onzas o una bebida con un trago de licor.

Considerando todos los tipos de bebidas alcohólicas, ¿cuántas veces durante los últimos 30 días tomó 5 o más bebidas (si es hombre) o 4 o más bebidas (si es mujer) en una ocasión?

<input type="checkbox"/> 0	<input type="checkbox"/> 4	<input type="checkbox"/> 8	<input type="checkbox"/> 12	<input type="checkbox"/> 16	<input type="checkbox"/> 20	<input type="checkbox"/> 24	<input type="checkbox"/> 28
<input type="checkbox"/> 1	<input type="checkbox"/> 5	<input type="checkbox"/> 9	<input type="checkbox"/> 13	<input type="checkbox"/> 17	<input type="checkbox"/> 21	<input type="checkbox"/> 25	<input type="checkbox"/> 29
<input type="checkbox"/> 2	<input type="checkbox"/> 6	<input type="checkbox"/> 10	<input type="checkbox"/> 14	<input type="checkbox"/> 18	<input type="checkbox"/> 22	<input type="checkbox"/> 26	<input type="checkbox"/> 30
<input type="checkbox"/> 3	<input type="checkbox"/> 7	<input type="checkbox"/> 11	<input type="checkbox"/> 15	<input type="checkbox"/> 19	<input type="checkbox"/> 23	<input type="checkbox"/> 27	
<input type="checkbox"/> No sé / no estoy seguro							

18. Ahora le vamos a hacer una pregunta sobre el uso de drogas. Las respuestas que nos dan las personas sobre su uso de drogas son importantes para comprender los problemas de salud en el condado. Sabemos que esta información es personal, pero recuerde que sus respuestas se mantendrán confidenciales.

¿Has usado alguna droga ilegal en los últimos 30 días? Cuando decimos drogas, incluimos marihuana, cocaína, crack, heroína o cualquier otra sustancia ilegal. ¿Aproximadamente cuántos días has usado una de estas drogas ilegales? (*Elija solo una*).

<input type="checkbox"/> 0	<input type="checkbox"/> 4	<input type="checkbox"/> 8	<input type="checkbox"/> 12	<input type="checkbox"/> 16	<input type="checkbox"/> 20	<input type="checkbox"/> 24	<input type="checkbox"/> 28
<input type="checkbox"/> 1	<input type="checkbox"/> 5	<input type="checkbox"/> 9	<input type="checkbox"/> 13	<input type="checkbox"/> 17	<input type="checkbox"/> 21	<input type="checkbox"/> 25	<input type="checkbox"/> 29
<input type="checkbox"/> 2	<input type="checkbox"/> 6	<input type="checkbox"/> 10	<input type="checkbox"/> 14	<input type="checkbox"/> 18	<input type="checkbox"/> 22	<input type="checkbox"/> 26	<input type="checkbox"/> 30
<input type="checkbox"/> 3	<input type="checkbox"/> 7	<input type="checkbox"/> 11	<input type="checkbox"/> 15	<input type="checkbox"/> 19	<input type="checkbox"/> 23	<input type="checkbox"/> 27	
<input type="checkbox"/> No sé / no estoy seguro							

(Si su respuesta es 0, salte a la pregunta numero 20)

19. Durante los últimos 30 días, ¿qué droga ilegal ha usado? (*Marque todas las que corresponden*).

<input type="checkbox"/>	Mariguana
<input type="checkbox"/>	Cocaína

- ☐ Heroína
- ☐ Otros (especificar)

20. Durante los últimos 30 días, ¿ha tomado algún medicamento recetado para el que no tenía una receta (por ejemplo, Oxycontin, Percocet, Demerol, Adderall, Ritalin o Xanax)? ¿Cuántas veces durante los últimos 30 días usó un medicamento recetado para el cual no tenía una receta? (Elija solo una).

- | | | | | | | | |

- ☐ No sé / no estoy seguro

21. La siguiente pregunta se relaciona con la salud de una persona que ha servido en las fuerzas Armadas. ¿Alguna vez ha estado en servicio activo en las Fuerzas Armadas de los Estados Unidos (Sin incluir el servicio activo de solo entrenamientos en las Reservas o la Guardia Nacional)? (Elija solo una).

- ☐ Sí
- ☐ No *(Si su respuesta es No, salte a la pregunta numero 23)*

22. ¿Alguna vez un médico u otro profesional de la salud le ha dicho que tiene depresión, ansiedad o trastorno por estrés postraumático (TEPT)? (Elija solo una).

- ☐ Sí
- ☐ No

23. Ahora nos gustaría saber sobre su estado físico. Durante una semana normal, aparte de su trabajo habitual, ¿realiza alguna actividad física o ejercicio que dure al menos media hora? (Elija solo una).

☐

Sí

☐

No *(Si su respuesta es No, salte a la pregunta numero 26)*

☐

No sé / no estoy seguro *(Si su respuesta es No se / no estoy seguro, salte a la pregunta numero 26)*

24. Como dijo que sí, ¿cuántas veces hace ejercicio o se involucra en alguna actividad física durante una semana normal?

25. ¿A dónde va a hacer ejercicio o participa en actividad físicas? (Marque todas las que corresponden).

- | | |
|---|---|
| <input type="checkbox"/> YMCA | <input type="checkbox"/> Sitio de trabajo / Empleador |
| <input type="checkbox"/> Parque | <input type="checkbox"/> Terrenos escolares / instalaciones |
| <input type="checkbox"/> Centro de Recreación Pública | <input type="checkbox"/> Casa |
| <input type="checkbox"/> Gimnasio privado | <input type="checkbox"/> Iglesia |
| <input type="checkbox"/> Otros (especificar) | |

Como su respuesta fue Si a la pregunta 23 (actividad física / ejercicio), salte a la pregunta numero 27

26. Ya que dijo "no", ¿cuáles son las razones por las que no hace ejercicio por media hora durante una semana normal? Puedes dar tantos de estos motivos como necesite.

- | | |
|--|--|
| <input type="checkbox"/> Mi trabajo es trabajo físico o trabajo duro | <input type="checkbox"/> Necesitaría cuidado de niños y no lo tengo. |
| <input type="checkbox"/> El ejercicio no es importante para mí. | <input type="checkbox"/> No sé cómo encontrar compañeros de ejercicio. |
| <input type="checkbox"/> No tengo acceso a una instalación que tenga las cosas que necesito, como una piscina, un campo de golf o una pista. | <input type="checkbox"/> No me gusta hacer ejercicio |
| <input type="checkbox"/> No tengo suficiente tiempo para hacer ejercicio. | <input type="checkbox"/> Me cuesta mucho hacer ejercicio. |
| | <input type="checkbox"/> No hay un lugar seguro para hacer ejercicio. |

☐ Necesito transporte y no lo tengo.

☐ Estoy físicamente deshabilitado.

☐ Estoy demasiado cansado para hacer

☐ No lo sé.

ejercicio.

☐ Otros (especificar)

27. Sin contar ensalada de lechuga o productos de papa como papas fritas, piense en la frecuencia con la que come frutas y verduras en una semana normal.

¿Cuántas tazas por semana de frutas y vegetales dirías que comes? (*Una manzana o 12 zanahorias pequeñas equivalen a una taza*).

Cantidad de tazas de fruta

Número de tazas de verduras

Cantidad de tazas de jugo de fruta 100%

28. ¿Alguna vez estuvo expuesto al humo del cigarro de alguien que fumó cerca de usted durante el último año? (*Elija solo una*).

☐

Sí

☐

No (*Si su respuesta es No, salte a la pregunta numero 30*)

☐

No sé / no estoy seguro (*Si su respuesta es No se / no estoy seguro, salte a la pregunta numero 30*)

29. En caso afirmativo, ¿dónde cree que está expuesto al humo de segunda mano con mayor frecuencia? (*Marque solo uno*)

☐

Casa

☐

Lugar de trabajo

☐

Hospitales

☐

Restaurantes

☐

Colegio

☐

No estoy expuesto al humo de segunda mano.

☐

Otros (especificar)

30. ¿Actualmente usa algún producto que contiene tabaco? (Esto incluye cigarros, cigarros electrónicos, masticar tabaco o cigarro de vapor.) (Elija solo una).

☐

Sí

☐

No

(Si su respuesta es No, salte a la pregunta numero 32)

31. En caso afirmativo, ¿a dónde iría en busca de ayuda si quisiera dejar de fumar? (Elija solo una).

☐

QUITLINE NC (ayuda por teléfono)

☐

Departamento de salud

☐

Doctor

☐

No lo sé

☐

Farmacia

☐

No aplica; No quiero renunciar

☐

Consejero / terapeuta privado

☐

Otros (especificar)

32. Ahora le haremos preguntas sobre sus vacunas personales contra la gripe. Una vacuna contra la influenza / gripe puede ser una "inyección contra la gripe" inyectada en su brazo o también el espray "FluMist" que se rocía en su nariz. Durante los últimos 12 meses, ¿se vacunó contra la gripe o se puso el espray "FluMist"? (Elija solo una).

☐

Sí, vacuna contra la gripe

☐

Sí, FluMist

- ☐ Si ambos
- ☐ No
- ☐ No sé / no estoy seguro

PARTE 5: Acceso a la atención / Salud familiar

33. ¿A dónde va más a menudo cuando está enfermo? (Elija solo uno)

- | | |
|--|--|
| <input type="checkbox"/> Oficina del doctor | <input type="checkbox"/> Clínica Médica |
| <input type="checkbox"/> Departamento de salud | <input type="checkbox"/> Centro de cuidado urgente |
| <input type="checkbox"/> Hospital | |
| <input type="checkbox"/> Otros (especificar) | |

34. ¿Tiene alguno de los siguientes tipos de seguro de salud o cobertura de atención médica? (Elija todos los que aplique)

- ☐ Seguro de salud que mi empleador proporciona
- ☐ Seguro de salud que proporciona el empleador de mi cónyuge
- ☐ Seguro de salud que mi escuela proporciona
- ☐ Seguro de salud que proporciona mi padre o el empleador de mis padres
- ☐ Seguro de salud que compré
- ☐ Seguro de salud a través del Mercado de Seguros Médicos (Obamacare)
- ☐ Seguro Militar, Tricare o el VA
- ☐ Seguro de enfermedad
- ☐ Seguro médico del estado
- ☐ Sin plan de salud de ningún tipo

35. En los últimos 12 meses, ¿tuvo problemas para obtener la atención médica que necesitaba para usted o para un familiar de cualquier tipo de proveedor de atención médica, dentista, farmacia u otro centro? (Elija solo uno)

- ☐ Sí
- ☐ No *(Si su respuesta es No, salte a la pregunta numero 38)*
- ☐ No sé / no estoy seguro

36. Dado que usted dijo "sí", ¿Con cual tipo de proveedor o institución tuvo problemas para obtener atención médica? Puede elegir tantos de estos como necesite.

- | | | |
|--|---|---|
| <input type="checkbox"/> Dentista | <input type="checkbox"/> Pediatra | <input type="checkbox"/> Centro de atención |
| <input type="checkbox"/> Médico general | <input type="checkbox"/> Ginecologo | <input type="checkbox"/> urgente |
| <input type="checkbox"/> Cuidado de los ojos /
optometrista / oftalmólogo | <input type="checkbox"/> Departamento

Mapa del condado de Carolina del Norte

39. En los últimos 12 meses, ¿alguna vez le preocupó saber si la comida de su familia se agotaría antes de obtener dinero para comprar más? (*Elija solo uno*)

☐ Sí

☐ No

☐ No sé / no estoy seguro

40. Si un amigo o miembro de la familia necesita asesoría para un problema de salud mental o de abuso de drogas o alcohol, ¿quién es la primera persona con la que les diría que hablen? (Elija solo uno)

- | | |
|--|---|
| <input type="checkbox"/> Consejero o terapeuta privado | <input type="checkbox"/> No sé |
| <input type="checkbox"/> Grupo de apoyo | <input type="checkbox"/> Doctor |
| <input type="checkbox"/> Consejero de la escuela | <input type="checkbox"/> Pastor o funcionario religioso |
| <input type="checkbox"/> Otros (especificar) | |

PARTE 6: Preparación para emergencias

41. ¿Tiene en su hogar detectores de humo y monóxido de carbono en funcionamiento? (Elija solo uno)

- ☐ Sí, solo detectores de humo
- ☐ Si ambos
- ☐ No sé / no estoy seguro
- ☐ Sí, sólo detectores de monóxido de carbono
- ☐ No

42. ¿Su familia tiene un kit básico de suministros de emergencia? (Estos kits incluyen agua, alimentos no perecederos, cualquier receta necesaria, suministros de primeros auxilios, linterna y baterías, abrelatas no eléctrico, cobijas, etc.)

- ☐ Sí
- ☐ No
- ☐ No sé / no estoy seguro

En caso que sí, ¿cuántos días tiene suministros? (Escriba el número de días)

43. ¿Cuál sería su forma principal de obtener información de las autoridades en un desastre o emergencia a gran escala? (Marque solo uno)

- | | |
|--|---|
| <input type="checkbox"/> Televisión | <input type="checkbox"/> Sitio de red social |
| <input type="checkbox"/> Radio | <input type="checkbox"/> Vecinos |
| <input type="checkbox"/> Internet | <input type="checkbox"/> Familia |
| <input type="checkbox"/> Línea de teléfono en casa | <input type="checkbox"/> Mensaje de texto (sistema de alerta de emergencia) |
| <input type="checkbox"/> Teléfono celular | <input type="checkbox"/> No sé / no estoy seguro |
| <input type="checkbox"/> Medios impresos (periódico) | |
| <input type="checkbox"/> Otros (especificar) | |

44. Si las autoridades públicas anunciaran una evacuación obligatoria de su vecindario o comunidad debido a un desastre a gran escala o una emergencia, ¿Ustedes evacuarían? (Elija solo uno)

- ☐ Sí *(Si su respuesta es Sí, salte a la pregunta numero 46)*

- ☐ No
- ☐ No sé / no estoy seguro

45. ¿Cuál sería la razón principal por la que no evacuaría si le pidieran que lo hiciera?
(Marque solo uno)

- | | |
|---|--|
| <input type="checkbox"/> Falta de transporte | <input type="checkbox"/> Preocupación por la seguridad familiar |
| <input type="checkbox"/> La falta de confianza en los funcionarios públicos | <input type="checkbox"/> Preocupación por dejar mascotas |
| <input type="checkbox"/> Preocupación por dejar atrás la propiedad | <input type="checkbox"/> Preocupación por los atascos de tráfico y la imposibilidad de salir |
| <input type="checkbox"/> Preocupación por la seguridad personal | <input type="checkbox"/> Problemas de salud (no se pudieron mover) |
| <input type="checkbox"/> Otros (especificar) | <input type="checkbox"/> No sé / no estoy seguro |

PARTE 7: Preguntas demográficas

La siguiente serie de preguntas son preguntas generales sobre usted, que solo se informarán como un resumen de todas las respuestas dadas por los participantes de la encuesta. Tus respuestas permanecerán en el anonimato.

46. ¿Qué edad tiene? (Elija solo uno)

- | | | |
|--------------------------------|--------------------------------|--------------------------------|
| <input type="checkbox"/> 15-19 | <input type="checkbox"/> 35-39 | <input type="checkbox"/> 55-59 |
| <input type="checkbox"/> 20-24 | <input type="checkbox"/> 40-44 | <input type="checkbox"/> 60-64 |

Core Questions

1. Introduce yourself and tell us what you think is the best thing about living in this community.

2. What do people in this community do to stay healthy?

Prompt: What do you do to stay healthy?

3. In your opinion, what are the serious health related problems in your community? What are some of the causes of these problems?

4. What keeps people in your community from being healthy?

Prompt: What challenges do you face that keep you from being healthy? What barriers exist to being healthy?

5. What could be done to solve these problems?

Prompt: What could be done to make your community healthier? Additional services or changes to existing services?

6. Is there any group not receiving enough health care? If so, what group? And why?

7. Is there anything else you would like us to know?

Additional Questions

1. How do people in this community get information about health? How do you get information about health?

2. Have you or someone close to you ever experienced any challenges in trying to get healthcare services? If so, what happened?

3. What is the major environmental issue in the county?

4. Describe collaborative efforts in the community. How can we improve our level of collaboration?

5. What are the strengths related to health in your community?

Prompt: Specific strengths related to healthcare?

Prompt: Specific strengths to a healthy lifestyle?

6. If you had \$100,000 to spend on a healthcare project in the county, how would you spend it?

Key Themes

Summarize the top 2-3 themes from this focus group discussion.

1.

2.

3.

Appendix D. Community Resources

Bladen County Resource Inventory & Assessment

— Available Resources Related to Priority Areas —

According to the 2018 CHNA, eight topic areas were identified as leading health concerns in the county: Exercise, Nutrition, and Weight, Substance Abuse, Maternal, Fetal, and Infant Health, Diabetes, Stroke and Heart Disease, Prevention and Safety, Access to Health Services, and Economy.

Priority #1: Exercise, Nutrition, and Weight

Ranked as the 14th most pressing health need in Bladen County. Indicators included: adults 20+ who are obese, access to exercise opportunities, child food insecurity rate, and adults 20+ who are sedentary.

As Identified by Healthy People 2020, diet and exercise have an influential impact on the health status of individuals. In addition many research studies have proven that maintaining a healthy diet and exercising daily will drastically lower your risk for many chronic diseases. However, there are many social and physical determinates that play a large role such as: attitudes and norms, culture, social supports, and environment that create especially difficult barriers to address.

In order to come closer to closing the gaps for creating more exercise opportunities and access for healthier food options additional resources are needed. The existing programs and services are offered in the county and are outlined in further detail below.

Resources that address: Exercise, Nutrition, and Weight

4H SNAP-Ed Program/Senior and School Programs

NC State University's SNAP-Ed Program is "Steps to Health." The goal of this program is to assist those eligible for food assistance to eat smart and move more. It is designed for preschoolers all the way up to 3rd grade students, adults, Latino families, and older adults.

Contact: NC Cooperative Extension-Bladen County (910) 862-4591

Supplemental Nutrition Assistance Program (SNAP)

SNAP serves limited resource individuals and families across North Carolina. Amount of benefits are determined by income, family size, and resource limits.

Contact: Bladen County Department of Social Services (DSS) (910) 862-6800

Women, Infant, and Children (WIC)

The WIC Program gives its participants access to a number of resources, including health screenings, nutrition and breastfeeding counseling, immunization screening and referral, substance abuse referral, and more. WIC is for children up to age 5, infants, pregnant women, breastfeeding women, and women who have had a baby in the last 6 months. A person can qualify if they already receive SNAP benefits, are on Medicaid, or meet income guidelines.

Contact: Bladen County Health Department-WIC (910) 872-6218

Bladen County Parks and Recreation

There are 7 parks in the county, one of which is owned and operated by the County. A variety of recreation programs are offered all year round to both youth and adults in the county. In addition, the parks and recreation department assist the Bladen County 4-H summer programs and offers a Special Olympics every year in April.

Contact: Bladen County Parks and Recreation Department (910) 862-6770

Health Works Fitness Center

Health Works offers a 24-Hour area that is open 24-hours, 7 days per week. Their main facility is open Monday – Thursday from 5 a.m. – 8 p.m., Friday 5 a.m. – 6 p.m., Saturday from 8 a.m. – 12 p.m. and Sunday – closed. The facility offers cardiovascular and weight training equipment, locker rooms, a walking track, group exercise room, a multi-purpose room that is used for classes, training and hosting special events.

Contact: 910-862-6533

Brown's Creek Bike Trail

Located in the heart of Elizabethtown, NC is a mountain bike/hiking trail that stretches 6.4 miles long of scenic hardwood forest and runs along the beautiful Brown's Creek.

Contact: Bladen County Parks and Recreation Department (910) 862-6770

Physical Education in NC Schools

North Carolina mandates physical education in grades K-5 and healthful living education (physical education and health education) in grades 6-12, but it does not specify required days or minutes per week for elementary or middle schools. The state also requires one unit of healthful living education for high school graduation which includes one semester of physical education. Schools are expected to follow the North Carolina Standard Course of Study for healthful living, which includes teaching and learning of behaviors that contribute to a healthful lifestyle and improved quality of life for all students.

Contact: Bladen County Board of Education (910) 862-4136

Health Education/Promotions Department

Bladen County Health and Human Services Health Educators are available to provide and offer educational material, classes and seminars on health related issues. These services are available to all people and organizations throughout the county. They also plan and coordinate community events that promote health. In addition, they also promote programs such as: Faithful Families, Eating Smart Moving More, Walking Programs, Safe Kids, Healthy Bladen Collaborative, and Health Education Programming.

Contact: Bladen County Health Education Department (910) 862-6900 EXT 5

NC Healthy School CDC Pilot Study

NC Healthy Schools focuses on improving the health of students and staff by providing coordination and resources within the context of the “Whole School, Whole Community, Whole Child” (WSCC) model. The goal is to create students who are healthier, in school, in class, and ready to learn. Students who are healthier are more alert, more focused on learning, and miss less school. They not only learn better in every class, but they also learn lifelong healthy behaviors.

Contact: Bladen County Board of Education (910) 862-4136

Healthy Bladen Kids Summer Program

This is a program that partners with NC schools After School Feeding program to help give children ages 5-14 a safe place to get some exercise, learn about age appropriate nutrition by our county Health Educators, and have a summer camp experience. Site locations are determined based on availability around the County for children to attend. This is a free program provided by the Parks and Recreation Department. After the nutrition education is finished a snack is provided to the children.

Contact: Bladen County Parks and Recreation (910) 862-6770

Eat Smart, Move More, Weigh Less

Developed by professionals from North Carolina State University and the NC Division of Public Health this curriculum is based on the theory of planned behavior. Eat Smart, Move More, Weigh Less is an online weight management program that uses strategies proven to work for weight loss and maintenance. Each lesson informs, empowers and motivates participants to live mindfully as they make choices about eating and physical activity. It is delivered in an interactive real-time format with a live instructor. The program is offered to employers and health plans interested in eating smart, moving more, and achieving a healthy weight.

Contact: Health Promotions Department-Bladen County Health Department (910) 862-6900 EXT 5

Faithful Families: Eating Smart; Moving More

Faithful Families Thriving Communities (Faithful Families) works directly in communities of faith across the country to promote health for individuals, families, and local communities. The practice-tested program is open to all faith and religious traditions and engages faith communities in health education, environmental changes to support health, and community-wide health initiatives.

Farmer's Market

Our county has two farmer's markets currently, Cape Fear farmer's market and Bladenboro farmer's market. Each sell a variety of produce based on the season. Any and all local farmers can attend to provide their products for the residents of the county.

Contact: Cape Fear Farmer's Market (910) 862-2066 & Bladenboro Farmer's Market (910) 862-3655

Assessment of Needed/Lacking Resources: Exercise, Nutrition, & Weight

- Farmer's markets in other food desert areas of the county
- Nutrition education in schools (all ages)
- Park or greenway in each community
- Youth facilities or recreation centers
- Workout facilities in other towns
- County registered dietitian
- Mandated daily physical activity in school

Priority #2: Substance Abuse

From the secondary data, substance abuse was ranked as the 22nd most pressing health concern in the County. The top indicators being: adults who smoke and death rate due to drug poisoning. From the primary data, substance abuse was ranked as a top concern affecting quality of life where respondents wanted to learn more about substance abuse prevention.

As identified by Healthy People 2020, Substance abuse-involving drugs, alcohol or both can cause a wide range of social problems. Because of this, it has been noted as one of the most complex public health issues to resolve.

In order to come closer to addressing the social complexes that are derived from substance abuse disorders additional resources are needed. The existing programs and services are offered in the county and are outlined in further detail below.

Resources that address: Substance Abuse

Opioid Taskforce

This task force consists of collaboration between many different agencies within the community. It was designed to reduce opioid and heroin addiction, prevent overdose deaths, and improve the quality of life in our community.

Cape Fear Valley Bladen County Hospital

Located in Elizabethtown, is the only hospital in Bladen County. This is a 58 bed facility with a 24 hour emergency department. It is staffed on a full-time basis with specially trained physicians and nurses. Although a smaller facility, it is has a 23 bed medical surgical unit and intensive care unit. There are three outpatient clinics available to the community, Bladenboro, Dublin, and Elizabethtown. Bladen Medical Associates in Bladenboro and Dublin, Bladen Kids' Care in Elizabethtown, Women's Health Specialists in Elizabethtown, and Bladen Surgical Specialists are all branches and/or satellite locations around the county.

Contact: Cape Fear Valley Bladen County Hospital-General Information (910) 862-5100

Cape Fear Teen Challenge

This program is a 12-15 month residential facility for women overcoming life controlling issues such as drugs and alcohol during which time is spent in Bible study and education. It is our goal to provide a fresh start for women and enable them to become mentally sound, emotionally balanced, socially adjusted, physically well, and spiritually alive. The program will provide an opportunity to get away from the negative environment of the past and allow time to make quality decisions for the future.

Community Care of the Lower Cape Fear, Bladen County Access III

Community Care of the Lower Cape Fear is a regional network of nearly 192 primary and OB care practices, hospitals, health departments, departments of social services, and other agencies and organizations, including Trillium and Eastpointe MCOs and South East AHEC ("SEAHEC"). These professionals work together to provide cooperative, coordinated care through the Medical Home model. This approach matches each patient with a primary care provider who leads a health care team to address the patient's unique health needs. CCLCF care managers provide services to high-risk patients to improve self-management of chronic health conditions.

Contact: 1-800-953-0203 or (910) 763-0200

Eastpointe Mental Health

Eastpointe is a managed care organization (MCO) dedicated to working with individuals and families in eastern North Carolina who struggle with substance abuse, mental health and intellectual and developmental disabilities. In partnership with community agencies, licensed independent practitioners and hospitals, we help the uninsured and those on Medicaid get comprehensive, effective treatment that is essential for their well-being.

Contact: 1-800-913-6109

Assessment of Needed/Lacking Resources: Substance Abuse

- Support groups for non-medication assisted treatment patients
- Support groups for medication assisted treatment patients
- Counselors/therapists in the county
- Detoxification and inpatient recovery facilities

New/Emerging Issue: Maternal, Fetal, and Infant Health

From the secondary data, maternal, fetal, and infant health was a top leading health concern for the county. Top indicators included: babies with a very low or low birth weight, and babies born preterm.

According to Healthy People 2020, maternal, fetal and infant healths are all leading concerns for the United States. Their well-being determines the health of the next generation and can help predict future public health challenges for families, communities, and the health care system. Like many other public health topics/concerns, the health of mothers and their offspring is largely influenced by socioeconomic factors and genetics. Nonetheless, many of these uncontrollable influences can be reduced by increasing access to quality preconception, prenatal, and interconception care. Further, having continuous care for mom and baby can elicit early detection and treatment of developmental delays and disabilities can prevent death/disability to enable children to reach their full potentials.

Resources that address: Maternal, Fetal, and Infant Health

Women's Health Specialist-Bladen County

An extension of Cape Fear Valley Hospital, this clinic offers general and high-risk obstetric care and gynecology. It is located in Elizabethtown, NC.

- OB/GYN doctors in the county
- Pediatricians in the county
- Support groups for breastfeeding
- Support groups postpartum depression sufferers
- Counseling/therapist services for postpartum depression

Appendix E. Priority Setting Process

There were two priority setting meetings conducted in order to determine the selected priorities for Bladen County. These priorities were derived from the list of the top 8 identified health concerns.

Both the consequences of not addressing, and the feasibility of us doing something about these areas of concern, were discussed in detail. The feedback of our discussions is represented below.

Notes from the Priority Meetings by topic:

The following are the top **8 identified health concerns** from the statistical data and the survey data from the citizens in our current CHA/CHNA.

DIABETES	
<i>Consequences</i>	<i>Feasibility</i>
Children	Diabetes Education
Heart disease	Support Groups
Stroke	Free A1C Testing \$\$\$
Loss of Limbs	Pre-Diabetes Education
Vision	
Increased Healthcare costs	
Loss of Work Days	
Death	

*Diabetes was ranked as the #5 cause of death in Bladen (2014-2016, CDC). 15% of Community survey participants reported being told by a medical professional that they have Diabetes. 50% have been told that they were overweight and obese.

Chosen-Priority #1: Exercise, Nutrition, and Weight

EXERCISE, NUTRITION, AND WEIGHT	
<i>Consequences</i>	<i>Feasibility</i>
Obesity	Lunch and Learns
Diabetes	Community Programs
Heart Disease/Stroke	4H SNAP/Senior and School Program
Joint Issues	Fruit and Vegetable Grant for School
	Parks and Recreation
	Fitness Center
	Bike Trail
	P.E. in Schools
	Community Walk/Run Events
	NC Healthy School CDC Pilot Study
	Dr. Offices/Talk to Providers about what they see.

*Ranked as the 14th most pressing health need in Bladen County. Indicators included: Adults 20+ who are obese, access to exercise opportunities, child food insecurity rate, and Adults 20+ who are sedentary.

Chosen-Priority-New and Emerging Issue: Maternal, Fetal, and Infant Health

MATERNAL, FETAL, AND INFANT HEALTH	
<i>Consequences</i>	<i>Feasibility</i>
Baby's Health	March of Dimes Program
Death	Family Planning
Mother's Health	Mental Health/Substance Abuse Services
Depression/Mental Health	CC4C-Care Coordination for Children
Financial	OBCM-OB Case Management
Substance Abuse	Pediatricians
Learning Disabilities	
Behavioral Component for Children	
No place to Deliver in the County	

*12.9% of babies are born preterm in Bladen County, which does not meet the Healthy People 2020 goal. Babies born with low birth weight are on the rise with a rate of 10.2.

HEART DISEASE AND STROKE	
<i>Consequences</i>	<i>Feasibility</i>
Obesity	Prevention Education
Diabetes	Screenings (Free)
Children	Incentives to do healthy activities
Heart disease	\$ Money
Stroke	
Increased Healthcare costs	
Loss of Work Days	
Death	

*Heart Disease is the #1 leading cause of death in Bladen County as of (2014-2016, CDC source).

PREVENTION AND SAFETY

<i>Consequences</i>	<i>Feasibility</i>
Increased deaths due to: -firearms -poisonings (unintentional) -drug poisonings Increased Hospital Visits	Safe Kids Program Housing Authority (tobacco cessation) Gun Safety Education: -gun locks -wildlife/hunter safety OMD/DEA Medication Takeback events Medication Lock Boxes/Pill Disposal Educational Programs: -diet/exercise Cape Fear Valley Tobacco Free Campus (1/2019)

*The death rate due to unintentional poisoning does not meet the Healthy NC 2020 goal of 9.9 deaths per 100,000 population. Bladen County has a rate of 20.9 according to the 2013-2015 data, against the NC rate of 12.9.

ECONOMY

<i>Consequences</i>	<i>Feasibility</i>
Population Decrease Older/elderly county (no jobs) No growth Unwillingness to be open minded Facilities suffer: -lack of new parks/YMCA No \$ for incentives for providers to move to this area Income affects growth	Increase minimum wage (state level policy driven) Work with colleges on Economic Dev. High School/Early College NC Works Career Coach Add parks in other areas of county Career/College Day (high schools) Provide incentives for college Interns/Job Shadowing Town/Municipality Grants Addressing Severe Housing Problems (providing/building shelters)

* From the secondary data scoring results, Economy was the 9th most pressing health need in Bladen County with a score of 1.94. According to the data, both poverty and the economy were the top issues in Bladen County that negatively impact quality of life.

ACCESS TO HEALTH SERVICES

<i>Consequences</i>	<i>Feasibility</i>
Unnecessary hospital visits	Increase provider/population ratio
Lack of primary care providers	(medicare population-hospital visits)
Lack of folks insured	Providing transportation
Sicker population	Routes/public transits
Decrease in preventive visits	Mobile health clinics/satellite locations
Children over 5 Years of age lack:	Dental clinics (mobile) free services
-check-ups (can catch preventive health problems)	Comwell health offers free dental clinic
Urgent care costs more than ER	Special needs
Can't afford deductibles/insurance costs	
Fear of denial of medical treatment	

*Preventable hospital stays are a concern for the Medicare population in Bladen County with a value of 80.5 discharges per 1,000 Medicare enrollees.

Chosen-Priority #2: Substance Abuse

SUBSTANCE ABUSE

<i>Consequences</i>	<i>Feasibility</i>
loss of jobs	Increase Treatment Facilities
loss if family/friends	Getting people to get treatment
weight/dental health	Creating more support groups:
financial reduction	-lack of therapists/counselors
death	Educating Community
dependence	Pharmacy Naloxone Distribution
EMS-Answering overdoses	Community Involvement:
Increased jail time/crime associated	-providers & pharmacists
Child neglect/poisoning	Lock boxes and Pill Dispensing
Pregnancy/infant mortality	Pain Management Education
Disabilities	Increase Drug Screenings
Narcan being used along with drugs	Student Forums
	Syringe Exchange
	Offer medication disposal bags w/ Rx.

* From the secondary data scoring results, Substance Abuse was the 22nd most pressing health need in Bladen County. Community survey participants ranked substance abuse (25.7%) as a top issue affecting quality of life in Bladen County.
